CONSENT FORM FOR CHIROPRACTIC TREATMENT

Manipulation/mobilization helps restore proper motion to the vertebral (facet) joints. During chiropractic treatment, the doctor will use his/her hands or a mechanical device in order to reestablish proper function to the spine and to reduce pain, edema and muscle spasm. You may feel a "click" or "pop", such as the noise when a knuckle is "cracked", and you may feel movement of the joint.

Possible risks:

As with any health care procedure, complications are possible following a chiropractic manipulation. Complications could include fractures of bone, muscular strain, ligamentous sprain, dislocations of joint, or injury to intervertebral discs, nerves or spinal cord. Stroke could occur upon severe injury to arteries of the neck. A minority of patients may notice stiffness or soreness after the first few days of treatment.

Dry needling or acupuncture treatment is generally safe and side effects are rare – less than 1 in 10,000 treatments. Drowsiness occurs after treatment in a small number of patients and, in rare instances, fainting can occur. Minor bleeding or bruising occurs in about 3% of treatments. Discomfort during treatment is normal. THIS OFFICE ONLY USES SINGLE-USE, STERILE, DISPOSABLE NEEDLES.

The risks of complications due to chiropractic treatment have been described as "rare", about as often as complications are seen from the taking of a single aspirin tablet. The risk of stroke has been estimated at one in one million to one in twenty million, and can be even further reduced by screening procedures.

Your chiropractor may also use modalities to enhance your recovery and reduce symptoms. These may include ultrasound, electrical modalities, laser therapy, heat and ice, and other modalities. These are rarely associated with side effects or complications, and the risks may include soreness, skin reactions, or other mild side effects. Please report these and any other side effects or complications to your doctor right away. If you have skin sensitivities, a pacemaker, pregnancy or any other health condition that would change your ability to be exposed to electrical modalities, topical creams, or other care restrictions, please advise your doctor immediately.

I, _____, understand the hazards and potential dangers involved in treatment by means of chiropractic. I believe that this treatment is in my best interest and I understand that no guarantee of results has been made.

I understand that it usually requires a series of chiropractic treatments to significantly change a condition and receive benefit.
