

Ginkgo 2000mg

M1300

Quality is our Passion

Passion Flower (*Passiflora incarnata*)

Ginkgo 2000mg: Specialized Extract

A special, highly concentrated flavonoid extract of Ginkgo originated in Europe in the mid-1960s and in the decades following has been extensively investigated in clinical trials. Manufactured from Ginkgo leaves, special extract of Ginkgo contains a known amount of certain flavonoids and terpene lactones, and as little as possible of undesirable compounds (ginkgolic acids, biflavonoids). This extract is often called standardized Ginkgo extract and contains 24% ginkgo flavonglycosides (also written ginkgo flavone glycosides) and 6% ginkgolides and bilobalide.*

Blood flow in the body

The cardiovascular system consists of the heart ("cardio") and blood vessels ("vascular") by which blood is pumped and circulated through the body. Blood flows to and from the heart in three continuous circuits: pulmonary (lungs), systemic (body) and coronary (heart). Blood is circulated to the upper body (brain, arms) and the lower body (abdominal organs, legs) by the systemic circuit.¹ A healthy blood circulation results in the normal supply of oxygen and nutrients, including glucose, to the tissues.^{2*}

How Ginkgo 2000mg Keeps You Healthy

Supports healthy circulation and oxygen flow

Randomized, placebo-controlled clinical trials have shown that standardized Ginkgo extract helped with normal leg muscle function by supporting healthy circulation to the legs. In seven of the trials the results were statistically significant for Ginkgo. Participants in these trials increased their walking distance.^{3*}

Clinical trials also show that standardized Ginkgo extract supported healthy circulation to the organs and tissues of the upper body: brain, eye, forearm and fingers. In one trial, Ginkgo also helped provide healthy tissue metabolism in the brain, as measured by oxygen consumption and glucose uptake into brain tissue.^{2,4-8*}

Supports healthy mental function and vigilance

The ability of standardized Ginkgo extract to support healthy blood properties and healthy blood flow to the brain, may also explain why it supports healthy mental function.⁸ Analysis of randomized clinical trials indicates that standardized Ginkgo extract achieved this.^{9*}

Standardized Ginkgo extract also supports healthy vigilance (the state of being alert). This has been demonstrated in controlled clinical trials by measuring EEG (electroencephalogram) activity. In addition to supporting healthy blood flow to the brain, standardized Ginkgo extract supports normal transmission of signals in the nerve cells of the brain.¹⁰ Studies in test tubes indicate that Ginkgo may also help the structure of the nerve cells in the brain to stay healthy.^{11*}

Supplement Facts

Serving size:	1 tablet	
Servings per container:	60	
Amount per Serving		%DV
Calories	2	
Calcium	40 mg	4%
Ginkgo leaf 50:1 extract from <i>Ginkgo biloba</i> leaf 2.0 g	40 mg	†
Containing ginkgo flavonglycosides 9.6 mg		
Containing ginkgolides & bilobalide 2.4 mg		

† Daily Value (DV) not established.

Other ingredients: Calcium acid phosphate, cellulose, magnesium stearate and sodium starch glycolate.

Caution: Not to be used during pregnancy and lactation unless otherwise directed by a qualified health care professional.

Product No M1300
Content 60 Tablets

Director of Research and Development

A Phytotherapist's Passion

"Philosopher and teacher Rudolf Steiner once said that, for every human illness, somewhere in the world there exists a plant which is the cure. I believe that there is a healing potential locked inside plants which is integral with their evolution, just as it is part of human evolution to learn to tap this wonderful gift of Nature."

Supports good health in older adults

A population study in southwest France that followed the lives of people aged 65 and older for 13 years, found that taking standardized Ginkgo extract was associated with good health.^{12*}

Many ways to support health

Complex mixtures such as standardized Ginkgo extract often have many ways of acting. In addition to supporting healthy blood flow and healthy tissue metabolism, standardized Ginkgo extract may also help by:

- supporting healthy properties of the blood, such as viscosity^{2,4,8}
- providing antioxidant protection^{13,14*}

A clinical trial also found that standardized Ginkgo extract supported healthy nerve function in the hands.^{14*}

What Makes Ginkgo 2000mg Unique

Ginkgo 2000mg is unique in the professional herbal products industry because:

- It states on the label exactly how much each tablet contains of the important plant constituents (ginkgo flavonglycosides, ginkgolides, bilobalide)
- MediHerb tests the quantity of ginkgo flavonglycosides (quercetin, kaempferol, isorhamnetin) in Ginkgo raw material
- MediHerb's testing also ensures the ginkgo flavonglycosides are retained in the product throughout manufacture

Unique Manufacture & Analytical Testing

Quality and safety ensured

- Manufactured in Australia to the high standards of international pharmaceutical Good Manufacturing Practice
- Raw materials and finished product are subjected to tough quality standards

Quality is our Passion

MediHerb products are developed by experts and leaders in the field of herbal therapy, using scientific evidence and hundreds of years of traditional knowledge.

Kerry Bone and over 20 health care professionals work within MediHerb while still managing their own clinical practices, plus we consult with an advisory board of health care professionals from around the world.

Our products are made using only the highest quality ingredients which are extensively tested for purity and potency. The MediHerb manufacturing plant operates to a strictly regulated pharmaceutical standard and is regularly audited by the Therapeutic Goods Administration (similar to the FDA), the same body that audits conventional pharmaceutical manufacturing facilities. The comprehensive regulations in Australia mean that you receive a safe and effective product that has been manufactured to pharmaceutical standards.

We know from our experience as health care professionals that the quality of a product you take makes a huge difference to the health outcome you experience. We dedicate ourselves to researching and making the best possible products to deliver health solutions that work.
