The following agreement applies only to the services actually rendered by KEVIN L. KALDY, DC, PC dba The Las Vegas Pain and Wellness Center and in no way obligates a patient to continue any course of treatment recommended.

APPOINTMENTS

1. **Copayments:** Copayments for clinic visits are due at the time of service. If you are unable to make your copayment at the time of service, LVPWC reserves the right to reschedule your appointment until a time that you are able to make your copayment. Payment for any outstanding balance is due at your appointment.

2. **Manipulation Under Anesthesia (MUA) Procedure Prepayment:** LVPWC collects your payment for the procedure at the time when the procedure is scheduled, if one is due. Your prepayment is based on an estimate of your expected financial responsibility. This is an estimate only. You are responsible for any unpaid balance after your insurance (if applicable) has been billed and you are also responsible for any "patient responsibility" as deemed by your insurance (if applicable). We reserve the right to reschedule your procedure until your prepayment if any has been made. There is a $500 charge if the procedure is cancelled by the patient within 24 hours.

   Separate fees: The ambulatory surgery center will discuss with you separately any fees due them and due for anesthesia. The assisting physician, if applicable; will bill you and/or your insurance separately for any fees due them.

3. **Missed Appointments and Late Arrivals:** Our doctor(s) run on time. If you do not show up to your appointment, you will be responsible for a missed appointment fee. This will also hold if you are more than 15 minutes late. Please call 24 hours before your appointment to reschedule to another date.
   If you are more than 15 minutes late you will be rescheduled and considered a missed office visit. ALL missed or late appointments are subject to a $25 charge. Missed procedure appointments are subject to a $500 charge. These charges are your responsibility and will not be billed to any insurance carrier. **Initial:____**

INSURANCE

4. **Financial Responsibility:** Your insurance policy is a contract between you and your insurance carrier. You are ultimately responsible for payment-in-full for all chiropractic and procedure services provided to you. Any charges not paid by your insurer or your attorney will be your responsibility, except as limited by our contract (if any) with your insurance carrier.

5. **Coverage Changes and Timely Submission:** It is your responsibility to inform us in a timely manner of any changes to your billing or insurance information. There is a time limit within which LVPWC must submit a claim on your behalf to your insurer. If LVPWC is unable to submit your claim within this period because we have not been supplied with your correct insurance information, you will be responsible for the charges.

6. **Self-Pay:** If you do not have health insurance, or if your health insurance will not pay for services rendered by LVPWC, you are considered a self-pay patient. Your charges will be based on our current self-pay fee schedule (available from our front desk). Self-pay patients are expected to make payment in full at the time of service.

BENEFITS AND AUTHORIZATION

7. **Insurance Plan Participation.** We participate in many but not all insurance plans. It is your reasonability to contact your insurance company to verify that your assigned physician participates in your plan if you wish to utilize your insurance. Out of network changes may have higher deductibles and copayments.

The Las Vegas Pain and Wellness Center Financial Policy (con't)

8. **Prior Authorization and Non-Covered Services.** LVPWC may provide services that insurance plans exclude or require prior authorization or mistakenly state as covered benefits. It is ultimately your responsibility to ensure that services provided to you are **covered** benefits and that you wish to receive them. We will make every attempt to get authorized by your insurer however they state, ***"THE FOLLOWING IS NOT A GUARENTEE OF PAYMENT AND ARE SUBJECT TO THE PLANS AND PROVISIONS OF THE INSUREDS PLAN"***. As a courtesy to our patients, LVPWC will make a good faith effort to determine if services we order are covered by your insurance plan, and, if so, whether or not prior authorization for treatment is required. If determined that a prior authorization is required, we will attempt to obtain such authorization on your behalf.
9. **Out of Network Payments.** If we are not part of your insurance carrier's network (out-of-network) and your insurance carrier pays you directly, you are solely responsibility for payment and agree to forward the payment to LVPWC, immediately.
10. **Personal Injury**: If you will be utilizing your Medical payment portion of your auto insurance or have hired an attorney to assist me in settlement of your case, it is your responsibility to keep all information pertaining to these entities current. You agree to provide the necessary documents and information required to THE LAS VEGAS PAIN AND WELLNESS CENTER, necessary for the collection of services rendered. You understand that the use of your Medical Payments portion of your auto insurance may not cover the entire bill and that you may owe a balance.
11. **Worker's Compensation**: If you have been injured while working and have completed the documents necessary to open a worker's compensation claim with your employer, the insurance company and adjuster must agree that you may receive care at our office. You agree to furnish THE LAS VEGAS PAIN AND WELLNESS CENTER, with the information needed to establish the work relatedness of your injury.

ACCOUNT BALANCES AND PAYMENTS:

12. **Reassignment of Balances.** If you insurance company does not pay within a reasonable time, we may transfer the balance to your sole responsibility. Please follow up with your insurance carrier to resolve non-payment issues. Balances are due within 30 days of receiving a statement.
13. **Collection of Unpaid Accounts.** In the event any unpaid balance is placed for collections, with a 3rd party collections agency, and/or placed with an attorney to obtain judgment or otherwise satisfy payment of this account, a fee of 50% of the unpaid balance will be added to the total amount due. This amount shall be in addition to any other costs incurred directly or indirectly by these individuals to collect amounts owed under this agreement such as court cost, sheriff/constable fees, and interest and late fees. **Initial:____**
14. **Returned Checks.** Returned checks will be subject to a $38 returned check fee.
15. **Statements.** Changes shown by statement are agreed to be correct and reasonable unless protested in writing within thirty (30) days of the billing dates.

INFORMED CONSENT FOR CHIROPRACTIC TREATMENT

Chiropractic, Medical, Osteopathic doctors and Physical therapists who perform manipulation are required by law to obtain your informed consent before starting treatment.

I _____, do hereby give my consent to the performance of conservative noninvasive treatment to the joints and soft tissues. I understand that the procedures may consist of manipulations/adjustments involving movement of the joints and soft tissues. Physical therapy and exercise may also be used. Although spinal manipulation/adjustment is considered to be one of the safest, most effective forms of therapy for musculo-skeletal problems, I am aware that there are possible risks and complications associated with these procedures as follows:

Soreness: I am aware that like exercise it is common to experience muscle soreness in the first few treatments.
Dizziness: Temporary symptoms like dizziness and nausea can occur but are relatively rare.
Fractures/Joint Injury: I further understand that in isolated cases underlying physical defects, deformities or pathologies like weak bones from Osteoporosis may render the patient susceptible to injury. When osteoporosis, degenerative disk, or other abnormality is detected, this office will proceed with extra caution.
Stroke: Although strokes happen with some frequency in our world, strokes from Chiropractic adjustments are extremely rare. I am aware that nerve or brain damage including stroke is reported to occur once in one million to once in ten million treatments. Once in a million is about the same chance as getting hit by lightning. Once in ten million is about the same chance as a normal dose of aspirin or Tylenol causing death.
Physical Therapy Burns: Some of the therapies used in this office generate heat and may rarely cause a burn. Despite precautions, if a burn is obtained, there will be a temporary increase of pain and possible blistering. This should be reported to the doctor.

TREATMENT RESULTS

I also understand that there are beneficial effects associated with these treatment procedures including decreased pain, improved mobility and function, and reduced muscle spasm. However, I appreciate that there is no certainty that I will achieve these benefits. I realized that the practice of medicine, including chiropractic, is not an exact science and I acknowledge that no guarantee has been made to me regarding the outcome of these procedures. I agree to the performance of these procedures by my doctor and such other persons of the doctor's choosing.

ALTERNATIVE TREATMENTS AVAILABLE

Reasonable alternatives to these procedures have been explained to me including rest, home applications of therapy, prescription and over-the-counter medications, exercises and possible surgery.

Medications: Medication can be used to reduce pain or inflammation. I am aware that long-term use or overuse of medication is always a cause for concern. Drugs may mask pathology, produce inadequate or short-term relief, undesirable side-effects, physical or psychological dependence, and may have to be continued indefinitely. Some medications may involve serious risks.
Rest/Exercise: It has been explained to me that simple rest is not likely to reverse pathology, although it may temporarily reduce inflammation and pain. The same is true of ice, heat, or other home therapy. Prolonged bed rest contributes to weakened bones and joint stiffness. Exercises are of limited value and are not corrective of injured nerve and joint tissues.
Surgery: Surgery may be necessary for joint instability or serious disk rupture. Surgical risks may include unsuccessful outcomes, complications, pain or reaction to anesthesia, and prolonged recovery.
Non-Treatment: I understand the potential risks of refusing or neglecting care may include increased pain, scar/adhesion formation, restricted motion, possible nerve damage, increased inflammation, and worsening pathology. The aforementioned may complicate treatment making future recovery and rehabilitation more difficult and lengthy.

I have read or have had read to me the above explanation or chiropractic treatment. Any questions I have had regarding these procedures have been answered to my satisfaction. I have made my decision voluntarily and freely.

To attest to my consent to these procedures, I hereby affix my signature to this authorization for treatment.
