Informed Consent to Care

You are the decision maker for your health care. Part of our role is to provide you with information to assist you in making informed choices. This process is often referred to as “informed consent” and involves your understanding and agreement regarding the care we recommend, the benefits and risks associated with the care, alternatives, and the potential effect on your health if you choose not to receive the care.

We may conduct some diagnostic or examination procedures if indicated. Any examinations or tests conducted will be carefully performed but may be uncomfortable.

Chiropractic care centrally involves what is known as a chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structures, such as vertebrae. Potential benefits of an adjustment include restoring normal joint motion, reducing swelling and inflammation in a joint, reducing pain in the joint, and improving neurological functioning and overall well-being. It is important that you understand, as with all health care approaches, results are not guaranteed, and there is no promise to cure. As with all types of health care interventions, there are some risks to care, including, but not limited to: muscle spasms, aggravating and/or temporary increase in symptoms, lack of improvement of symptoms, burns and/or scarring from electrical stimulation and from hot or cold therapies, including but not limited to hot packs and ice, fractures (broken bones), disc injuries, strokes, dislocations, strains, and sprains. With respect to strokes, there is a rare but serious condition known as an “arterial dissection” that typically is caused by a tear in the inner layer of the artery that may cause the development of a thrombus (clot) with the potential to lead to a stroke. The best available scientific evidence supports the understanding that chiropractic adjustment does not cause a dissection in a normal, healthy artery. Disease processes, genetic disorders, medications, and vessel abnormalities may cause an artery to be more susceptible to dissection. Strokes caused by arterial dissections have been associated with over 72 everyday activities such as sneezing, driving, and playing tennis. Arterial dissections occur in 3-4 of every 100,000 people whether they are receiving health care or not. Patients who experience this condition often, but not always, present to their medical doctor or chiropractor with neck pain and headache. Unfortunately a percentage of these patients will experience a stroke.

The reported association between chiropractic visits and stroke is exceedingly rare and is estimated to be related in one in one million to one in two million cervical adjustments. For comparison, the incidence of hospital admission attributed to aspirin use from major GI events of the entire (upper and lower) GI tract was 1219 events/ per one million persons/year and risk of death has been estimated as 104 per one million users.

It is also important that you understand there are treatment options available for your condition other than chiropractic procedures. Likely, you have tried many of these approaches already. These options may include, but are not limited to: self-administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical therapy, bracing, injections, and surgery. Lastly, you have the right to a second opinion and to secure other opinions about your circumstances and health care as you see fit.

I have read, or have had read to me, the above consent. I appreciate that it is not possible to consider every possible complication to care. I have also had an opportunity to ask questions about its content, and by signing below, I agree with the current or future recommendation to receive chiropractic care as is deemed appropriate for my circumstance. I intend this consent to cover the entire course of care from all providers in this office for my present condition and for any future condition(s) for which I seek chiropractic care from this office.

Insurance and Assignment of Benefits:

I understand and agree that health/accident insurance policies are an arrangement between and insurance carrier and myself. I understand that I am ultimately responsible for all charges associated with my healthcare. For my convenience Tri Modern Health have been given a quote of benefits from my insurance company, which is not binding. The exact services provided each visit will reflect my clinical needs that day. I understand that I am personally responsible for any service specified as non-covered or bundled (e.g. exam codes such as 99202-99204, 99212-99214 or Therapy codes such as 97140, 97035, 97032, Acupuncture) by my insurance company and agree to pay for the services rendered. By signing this I am giving permission for Tri Modern Health to submit claims on my behalf. After the explanation of benefits is received from my insurance company, I will be billed for the remaining balance or will receive a refund, if applicable.

Notice of Privacy Practices Pursuant to HIPAA and Consent for use of Health Information:

_____, hereby states that by signing this Consent, I acknowledge and agree as follows:

The Practice’s Privacy Notice has been provided to me prior to my signing this Consent. The Privacy Notice includes a complete description of the uses and/or disclosures of my protected health information (“PHI”) necessary for the Practice to provide treatment to me, and also necessary for the Practice to obtain payment for that treatment and to carry out its health care operations. The Practice explained to me that the Privacy Notice will be available to me in the future at my request. The Practice has further explained my right to obtain a copy of the Privacy Notice prior to signing this Consent, and has encouraged me to read the Privacy Notice carefully prior to my signing this Consent.

The Practice reserves the right to change its privacy practices that are described in its Privacy Notice, in accordance with applicable law.

I understand that, and consent to, the following appointment reminders that will be used by the Practice: a) a postcard mailed to me at the address provided by me; and b) telephoning my home and leaving a message on my answering machine or with the individual answering the phone.

The Practice may use and/or disclose my PHI (which includes information about my health or condition and the treatment provided to me) in order for the Practice to treat me and obtain payment for that treatment, and as necessary for the Practice to conduct its specific health care operations.

.I understand that if I revoke this consent at any time, the Practice has the right to refuse to treat me. I understand that if I do not sign this Consent evidencing my consent to the uses and disclosures described to me above and contained in the Privacy Notice, then the Practice will not treat me.

I have read and understand the foregoing notice, and all of my questions have been answered to my full satisfaction in a way that I can understand.
