

Comprehensive Blood Panel.

Our **Comprehensive Blood Chemistry Panel** is the cornerstone of all our wellness programs. Using both standard lab ranges, as well as ranges that are more specific to optimal wellness, we use blood labs to see where you stand with regards to energy systems, blood sugar control, liver and gallbladder, immune function, thyroid health, vitamin D, inflammation and more. This science guided look at your nutritional strengths and weakness through individualized blood analysis allows for a clear plan to optimizing your health.
