<b><i>Colorado Sports Chiropractic, the only place to go.</i></b>	I have been going to Colorado Sports Chiropractic Center for several years and have been more than impressed with their services. I would never use anyone else. I would highly recommend them to anyone. I've had several sports related injuries, that only Jeremy Rodgers knew how to fix. Jeremy is incredibly knowledgeable about all sports and back related issues. He is the guy to go to.	Beth	5
<b><i>Fantastic sports injury care!</i></b>	Dr. Rodgers is fantastic! He understands how to heal sports injuries and knows how to get you up and running quickly! He tailors the program to how urgently you need to heal (do you have a race coming up and need that ankle healed quickly??) and explains everything really well. Thanks so much!!	Beth	5
<b><i>They are great</i></b>	Jeremy and his staff are awesome. He goes the extra mile to help you and he's smart as a whip. Kay does a fantastic job too. They have been so helpful with my issues and couldn't imagine anyone else taking better care of me.	Paul	5
<b><i>The Absolute Best</i></b>	After having a pretty severe injury in May, I started to see Jeremy Rodgers. He was recommended to me by my family. I had gone to a few other chiropractors and didn't see results. In 3 sessions, I was 90% better. He not only adjusted my back, but made me realize that how I was living my life was greatly affecting my recovery. He truly cares and is a chiropractor I will see regularly from now on.	Dani	5
<b><i>Golden couple drives to see Dr. Rodgers</i></b>	We've had great overall care from Dr. Jeremy Rodgers. He takes time to understand the trouble areas, explains his thought process for the adjustments, and teaches us how to take care of the ailments long-term. His truly understands athletes, since he's an athlete, and helps us with recovery and our options. The staff is great and we appreciate the great Care. Thanks!	T.M.	5
<b><i>Jeremy Rodgers is a Healer</i></b>	Jeremy has outstanding knowledge of sports and chiropractic medicine and pain treatment and management techniques. He is always available in an emergency and his treatments are always effective. I highly recommend Jeremy Rodgers at Colorado Sports Chiropractic Center.	Mark	5
<b><i>THE BEST CHIROPRACTIC CARE EVER</i></b>	I am impressed with both the office operations and the care given in this office. I've had both chiropractic care and massage therapy in the past, but never as good as this. Jeremy is spot on with his chiropractic care and advice, and Kay is the the greatest when it comes to massage. You can't go wrong with this office.	Linda	5
<b><i>I feel great!</i></b>	Jeremy has been able to adjust my lower back, hips and neck so that I am able to function pain free. I have been dealing with arthritic joints for a number of years and the treatments I receive have been incredible.	Don	5

<b><i>Fantastic Experiences!</i></b>	I sprained my back 5 years ago and Dr. Thomm listened and not only treated me but gave me amazing advice & strengthening exercises to make my back stronger than it had ever been. Since then, she continues to help me improve my back health so that I can accomplish all my running goals and everyday life health.	Christy	<b>5</b>
<b><i>Sound, well expressed care.</i></b>	Everyone has said what I would have. Dr Rodgers is great. He asks many diagnostic questions and actually listens to the answers. He has an amazing understanding of body mechanics, so that a symptom in the ankle is not necessarily an ankle problem but perhaps a hip problem. Beyond his expertise, and other have commented on this, is his appreciation for the athlete's desire/need to get back. He seems truly excited to get you healed and to do it as quickly as possible.	T.H.	<b>5</b>
<b><i>Great at diagnosing the injury.</i></b>	Dr. Rodgers has impressed me with the time that he takes to learn about the injury and possible causes. He has been the most effective chiropractor that I have visited in my many years of treatment.	Robert	<b>5</b>
<b><i>consistently great help</i></b>	I've had some chronic injuries that Jeremy helped me get on top of and maintain for a couple of years since I was referred to his practice by several people. Kay Levesque - who does therapeutic massage at Colorado Sports Chiropractic Center - has magical hands that have helped reinforce Jeremy's work. My whole family has benefited from their help for a wide array of issues.	Justin	<b>5</b>
<b><i>Thank you!</i></b>	Dr. Rodgers is very knowledgeable- He went above and beyond to educate me on not only my injury, but the anatomy of my injury. He put together a treatment plan that focuses on the primary and secondary causes of my injury. I left feeling optimistic about an injury that has put a damper on my training and competition for the past year.	Anne	<b>5</b>
<b><i>Dr Thomm keeps me running, climbing &amp; dancing!</i></b>	I'm only 1 1/2 years old, but Dr Thomm makes me feel better after I take a tumble trying to keep up with my older brother. She is really gentle when she helps my back or neck and lets me play while she's doing it. My parents feel like she has also helped keep my immune system stronger. We all love her - and Kathy, too!	W.S.	<b>5</b>
<b><i>Best Chiropractor in State!</i></b>	I have gone to Jeremy for many years with hockey related injuries, back problems and vehicle accident related issues. <b><i>Jeremy Rodgers is fantastic</i></b>	Jeremy is so knowledgeable and is probably better than any other chiropractor we have used. He explains what is going on with your body and gives you "homework" to do on your own so that the number of appointments you need are kept to a minimum. The office staff, especially Cathi, are friendly and accommodating. We have referred Colorado Sports Chiropractic to several friends and they in turn have referred others. They are the best!	S.S.	5
<b><i>A Breath of Fresh Air in the Chiropractic Industry</i></b>	I had gone to several Chiropractors in Boulder County before finding Jeremy Rodgers at Colorado Sports Chiropractic Center in Louisville. Jeremy is very knowledgeable and really knows the issues people have with a bad back. Most of the Chiropractors I went to tried to put me on a regular visit routine that I didn't feel I needed. This is not the case at the Sports Chiropractic Center. Jeremy simply tells me what I need to do to help my back.	Mike	5
<b><i>Family Care</i></b>	Dr Thomm is incredible with children. We have been taking both of our daughters to Colorado Sports Chiropractic Center for sports related issues and wellness visits for five plus years. Dr. Thomm's gentle care and watchful eye has helped us make informed decisions regarding both our daughters' health issues. We can't thank you enough!!	K.J.	5

<b><i>Effective, Efficient Healthcare</i></b>	Jeremy Rodgers is excellent not only with chiropractic but also with injury treatment, particularly running-related issues. His diagnoses are spot-on and his course of action concise, targeted and efficient. Very few healthcare providers operate with Jeremy's degree of effectiveness and cost-consciousness. In short, your healthcare dollar is well-spent at Colorado Sports Chiropractic.	Richard	<b>5</b>
<b><i>Athletic Knowledge</i></b>	Every time I visit Maureen, she gets to the root issue of my problem. My body gets pretty twisted up from my wrestling schedule. <b><i>Finally someone that gets it!</i></b>	I've seen a few chiropractors over the years for low back problems to the point I stopped believing in the practice in general. At the recommendation of a friend, I went to see Dr. Thomm. She totally understood my issue and knew exactly what to do about it. She explained it all to me and now I know how to prevent it and how to catch symptoms early for an easy fix. She is the only chiro that has ever been able to help me and now I am a true believer! Thanks Dr. Thomm!!	Scott	<b>5</b>
<b><i>Jeremy Rogers</i></b>	I've been to dozens of chiropractors and sports medicine folks over the years. No one comes close to Jeremy in knowledge, technique or communications skills. Whether it's a knee, shoulder, back or neck problem -- whether soft tissue or a bone injury. Jeremy will get you back to normal as quickly as possible.	Older	<b>5</b>
<b><i>Jeremy Rodgers</i></b>	Jeremy has more knowledge in his field than any one I have worked with. He has a great bedside manner and a knack for explaining everything. <b><i>Dr. Maureen Thomm</i></b>	I have been seeing Dr. Maureen Thomm for several years now. She has always been willing to go the extra mile to accommodate me (and my entire family). She is the consummate professional and has been a god-sent in times of need or excruciating pain. I would recommend her services without ANY hesitation. She is simply the very best!	Elia	<b>5</b>
<b><i>Dr. Rogers' confident, accurate assessment and treatment was a huge blessing</i></b>	I've always been very leery of chiropractors. After having month-long lower back strain and hip issues last summer and not getting relief from my usual heat-cold treatments, I went to Dr. Jeremy Rodgers. Within three days, the lower back pain was gone and the follow-up treatments and physical therapy all but eliminated my hip pain within three months. Dr. Rogers' confident, accurate assessment and treatment was a huge blessing.	Jim	<b>5</b>
<b><i>No More Migraines</i></b>	I "play" hard, working out, jogging, and time on a stationary bike - all of this to stay as healthy as possible. This does, however, take its toll on my back and neck, especially my neck. Because of a rollerblading accident I have a neck that occasionally goes out. Dr. Thom at Spine and Sport can always put me back together, and I leave the office much taller than when I came in.	Joe	<b>5</b>
<b><i>Massage/adjustment combo</i></b>	I should have had the massage/adjustment combo years ago! What a difference it makes to be loosened up before you get twisted, turned and pulled!	Don	<b>5</b>
<b><i>Efficient and effective</i></b>	Never much of a wait. Dr. Thomm really knows her stuff and can get right to the issue. Very worthwhile appointment.	Scott	<b>5</b>
<b><i>Happy Results</i></b>	I've been a patient with Dr Thomm for several months. I've had several health complaints that are being addressed in a caring and professional manner. I'm happy I took advantage of the referral.	Karen	<b>5</b>
<b><i>Great Massage</i></b>	Victoria worked wonders on my back. She was very aware of my needs and found the best ways to help address the areas that were causing me pain and discomfort. I prefer deep massages and Victoria was more than capable of delivering the perfect amount of pressure to my different areas. I would absolutely recommend her to anyone.	Tiffany	<b>5</b>
<b><i>Wonderful Massage</i></b>	Victoria really help with my shoulders. I would highly recommend her to anyone. Thanks again for the excellent treatment.	F.M.	<b>5</b>
<b><i>Consistently awesome</i></b>	I've been going to see Dr. Rogers for years and have always received the appropriate amount of treatment. If I needed more sessions, he recommended them, but if a simple adjustment was all I needed, then I wasn't over sold. I have also received guidance on ways to stabilize through exercise.	s.W.	<b>5</b>

<b><i>Thorough treatment</i></b>	Dr Rodgers has a keen understanding of bio-mechanics and his thorough approach to total wellness is refreshing. I highly recommend him to anyone who wishes to stay healthy and active.	Ben	<b>5</b>
<b><i>Dr Thomm is outstanding!!!!</i></b>	Dr Thomm is the most effective and intuitive chiropractor I have ever received treatment from in 30 years!	Susanne	<b>5</b>
<b><i>The Best Chiropractors Around</i></b>	Colorado Spine and Sport have been my chiropractors for 10 years - I won't go anywhere else because I know what I'm going to get here: the best personalized treatment available in the area.	William	<b>5</b>
<b><i>Excellent Care</i></b>	Dr Thomm has been our entire families chiropractor for almost 10 years. She now treats all of our extended family members as well. Dr Thomm's treatments have always been effective in helping each of us with our individual needs. I appreciate that she will fit us in her schedule last minute if needed, even if her schedule is already full. She is patient, intelligent and thorough in her approach. By far the best chiropractor I have ever been treated by.	Scott	<b>5</b>
<b><i>Great Results with Jeremy</i></b>	Jeremy has seen my kids and myself for years. He's always spot on with whatever pain we're feeling. Three months after shoulder surgery I was back on the tennis court. I really appreciate his approach to recovery in terms of learning how to rehabilitate my own injuries with his guidance and adjustments. His approach is comprehensive as well.	Linda	<b>5</b>
<b><i>Comprehensive Service with Great Care</i></b>	I've seen Jeremy for years and he has always been professional, informative, and helpful. He is open to trying different strategies to treat my chronic health issues and often connects me with a new Dr or treatment. I also see the massage thereapist on site and she is excellent. Tori understands bodies really well and has an intuitive touch.	Amy	<b>5</b>
<b><i>Physical Therapy for Achilles surgery repair</i></b>	Care is taken and all questions were answered. Everyone is very accommodating and friendly. I look forward to continuing treatment for this issue. Overall CSS has been able to address and fix every issue my body has had. I have been a patient for over 5 years.	K.U.	<b>5</b>
<b><i>Good for prenatal adjustments</i></b>	I went to Dr. Thomm during my 2nd and 3rd trimester for adjustments related to hip pain. It helped a lot, and she's always a pleasure to talk to.	Jennifer	<b>5</b>
<b><i>Jeremy is the best</i></b>	Jeremy is a very thorough and profession Chiro. I feel very safe and well informed with his adjustments and always get solid advice on ways to reduce or even eliminate my aches and pains.	jeff	<b>5</b>

<b>Jeremy</b>	Jeremy rocks even if I am not an extreme athlete. I recommend him to every one. I don't know what I would do without him. And I am very happy his agaves are healthy.	Karla	<b>5</b>
<b>Thank you!</b>	Colorado Spine & Sport doesn't do anything unnecessary and their cost is very reasonable. Jeremy Rodgers is incredibly knowledgeable and helpful. After talking with him for a few minutes he examined my spine and the muscles in my back; he knew immediately what caused my discomfort. He gave practical advice on how to prevent it from happening again and showed me exercises and stretches to maintain my spine health. I highly recommend Colorado Spine & Sport.	well	<b>5</b>
<b>What a relief -</b>	Dr Maureen Thomm is the best thing that's ever happened to my back. And my stress level. Amazing how that works. I trust her with the treatments she's chosen & the reasonable suggestions for me to do My Part. Once I was 'adjusted', after a few visits, she recommended scaling back on appts, so I dont go more often than needed. Imagine! I respect her professionally & I like her too. The others in the office are really helpful as well & were flexible with me when my schedule got squirrely. THANKX!	L.P.	<b>5</b>
<b>Excellent massage therapist</b>	Great massage by Tori and my monthly adjustment makes me feel so much better. The time spent at CSS is well worth it. I feel great.	Don	<b>5</b>
<b>Excellent (Prenatal) Adjustments and Massage</b>	Dr. Thomm has been a lifesaver during my pregnancy. Like many other expecting women I was suffering from a sore back and aching hips, and I always feel so much better after Dr. Thomm straightens me out. She's easy going and fun to talk to.  Tori (Victoria) is a skilled massage therapist who really understands where the pain comes from and goes after it. Not for the faint of heart, but oh so worth it!	Jennifer	<b>5</b>
<b>Spine health: An essential investment</b>	I first went to Dr. Rodgers about a year ago with lower back and hip pain and some leg sciatica that would not go away. Within two days of the first treatment, the lower back pain was gone and within two weeks, the leg sciatica and hip pain was greatly diminished. Dr. Rodgers clearly believes in educating his clients about spine health and prescribes targeted at-home exercises that work. By choice, I'm now a regular client. The investment in my spine health has been well worth it!	Jim	<b>5</b>

<b>Outstanding!</b>	<p>I have a lot of experience with chiropractic work and am not the easiest case. I have been seeing Dr. Rodgers for what must easily be 2+ years now. He and his staff are excellent, attentive and personable - a huge plus!</p> <p>Dr. Rodgers is thorough, knowledgeable and most importantly respectful of my "limitations". I am not crazy about cervical adjustments, (although that and low back are what I need the most). I am very cautious with anyone working on my neck and he has been a tremendous help!</p>	J.Walker	<b>5</b>
<b>How can I thank Dr. Thomm enough!</b>	<p>I had problems with frozen shoulder and wasn't sure I would have much mobility in my arm. Dr. Thomm worked wonders. She is the best. I've been traveling from Parker to Louisville and well worth the drive for the results that she achieved. Thank you Dr. Thomm and your staff for all your help. I so appreciate all you have done.</p>	Lillian	<b>5</b>
<b>Massage a must!</b>	<p>I have been searching for a good sports massage for a LONG time. Tori knows her trade. She listens to where my pain is, digs in and releases tension no one else has been able to touch. I haven't been able to lie flat on my stomach in years due to my hip issues. Within 2 sessions I can now lie on my stomach for an extended time. So thankful! Highly recommend giving her a try.</p>	C.H.	<b>5</b>
<b>Great job!</b>	<p>Excellent Chiropractic!  Excellent Massage!  Excellent Receptionist!</p> <p>Thank you Jeremy, Tori, and Kathy!</p>	Richard	<b>5</b>
<b>Jeremy Rodgers</b>	<p>Jeremy is an excellent chiropractor/sports medicine provider. He can help with most external physical issues - back, legs, feet, arms, joints, neck, etc.</p>	M.S.	<b>5</b>
<b>Dr Maureen Thomm</b>	<p>I am so lucky I found Dr Maureen. She figured out the problem immediately &amp; relieved it in the 1st session. SO much better in just a few more visits. I can go for follow up adjustments as needed (from stress or 'bad movement'!). Not a forever commitment, but I return b/c it feels great &amp; it works. Also feels like I've known her forever. Professional, friendly, efficient. She knows her stuff &amp; knows exactly what I need. THANK YOU DR THOMM.</p>	Lee	<b>5</b>

<b><i>Dr. Maureen Thomm</i></b>	As a musician, I have had my share of back troubles and have seen several chiropractors over the years. Dr. Thomm provides the most comprehensive treatment I have ever received (including great adjustments, soft tissue work, and PT). She has a wonderfully genuine demeanor that relates well to others. I highly recommend Dr. Thomm!	Happy	5
<b><i>Treating Causes not Just Symptoms</i></b>	For a health professional be truly heal, they need to understand more than just the mechanics of their patient's problem, but also the context of their situation. What's going on in your life that may be contributing to your current dysfunction?  Dr. Thomm gently explores these areas with her patients. She worked with me to understand not only my symptoms but the causes behind my symptoms. She's made a huge, positive difference in my health. I highly recommend her.	Jim	5
<b><i>Great relief!</i></b>	Just yesterday, I saw Dr. Rogers for my regular spine adjustment. I'm 62 and had back surgery about 4 years ago. However, yesterday was different because I had a stiff neck and sore shoulders from cycling the 110 mile Buffalo Epic the previous Sunday. I explained the situation to Dr. Rogers and within 20 minutes, I walked out feeling great relief. Thank you Dr. Rogers!	Jim	5
<b><i>No better service</i></b>	I have seen Maureen for the last 8 yrs. She ALWAYS shows close attention to my issues & follows-up on the ones that need more attention. Looking ahead & looking out for me no matter how busy she is. Tori - finally, someone who can dig down into my muscles & really get them to release. The DIFFERENCE I feel in coming out of one of your massages. Christy - My last PT person released me when I needed more help. You have stepped up & are giving me the help I need to get my ankle working. THANK YOU	Erica	5
<b><i>Great Post-Auto Accident Care</i></b>	I was recently rear-ended by a drunk driver and have been receiving the best treatment and care I could hope for at Colorado Spine and Sport.	William	5
<b><i>Assessment for nerve disorder</i></b>	Jeremy Rodgers was very attentive, informative and took quite a bit of time to try to diagnose and determine treatment plan for my daughter's acute nerve disorder. We are very confident she will continue to get great care through Jeremy.	K.S.	5
<b><i>Great as always!</i></b>	I went to see Tori and Dr. Thomm a few weeks after giving birth. The treatments were great (as always), but what really impressed me was that Dr. Thomm took an extra 15 minutes to talk to me about the birthing experience and how it may be affecting my alignment and stress levels. She offered a ton of great advice. As always, I'm so grateful to work with her. I moved since I first started going, and am still more than happy to make the trek to Lafayette every week or two.	Jennifer	5

<b><i>Jeremy is amazing!</i></b>	I found Jeremy after moving to CO. He's been amazing helping me with my headaches but when my husband broke his leg, Jeremy was integral in his PT and healing. His guidance was key in helping us make tough decisions after the accident. We will not go to anyone else.	Nikki	<b>5</b>
<b><i>Dr. Maureen Thomm, DC is a blessing</i></b>	Dr. Thomm has been helping me for the past 4+ years.. PT for my rotator cuff tear, bicep tendon tear and back. The team is GREAT.	Todd	<b>5</b>
<b><i>Dr. Rodgers sets the standard</i></b>	Dr. Rodgers has assisted me with multiple issues from shoulder to low back to plantar fasciitis to ankle sprains. The results are always exceptional, and his attention to detail and ability to help me understand the cause of my issue so I can avoid repeat injury is world-class. I can't recommend them highly enough!	Chris	<b>5</b>
<b><i>Always effective</i></b>	I'm always amazed how Dr. Thomm zeros in on my lower back issues and fixes me. She really gets it. Highly recommended.	Scott	<b>5</b>
<b><i>Highly recommend!</i></b>	Jeremy Rodgers has been wonderful in helping my daughter recover from a disabling nerve condition. <b><i>Dr. Thomm is an excellent provider!</i></b>	Dr. Thomm has always provided excellent and compassionate care to me and my family. Through the years, I have personally seen her for two pregnancies and various orthopedic complaints in addition to chiropractic maintenance. She always demonstrates a genuine interest in my well-being that is made evident by her care.	Stephanie	<b>5</b>
<b><i>Excellence</i></b>	Dr. Rodgers is like Sherlock Holmes. He figures out what's wrong with me (where others could not), and then manages to fix me. I'm an ultrarunner, and I tend to run through injuries to the point where I need some serious treatment. Because of Dr. Rodgers, I've been able to finish several ultras, including 100 mile races (Leadville being one of them). I highly recommend him as the only sports doctor you'll need.	Lisa	<b>5</b>
<b><i>Closest thing to a miracle cure</i></b>	It is rare to find a medical practitioner who employs his expertise as effectively as does Jeremy Rodgers. He diagnoses the problem and addresses it quickly and deftly. These days, when scammers and incompetents too often dominate fields where professional integrity and competence should be the rule, finding a healthcare provider who reliably and affordably cures what ails you is a minor miracle. When it comes to spinal care, Jeremy Rodgers is the man.	Richard	<b>5</b>

<b><i>Very helpful!</i></b>	My monthly appointments are key to keeping my body healthy for the intense conditioning I do for basketball	Shane	<b>5</b>
<b><i>Dr. Jeremy is great!</i></b>	I sprained my foot / ankle. The office manager was great at getting me in that same day I injured my self ( Dr. Jeremy staying late that day to see me). Helped me to get on my rehab program for the fastest possible recovery. Its only been a week since my injury and I am doing fantastic.	Heli	<b>5</b>
<b><i>Very happy!</i></b>	Everyone is very friendly there. Dr. Maureen Tomm is who I see regularly and she is wonderful. I always leave there feeling better and with less pain. They give you their attention 100% and they care. If you need a chiropractor, I recommend them.	Heather	<b>5</b>
<b><i>awesome!</i></b>	Dr Thomm has been my chiropractor for almost 10 years. She has consistently helped me feel better and has helped me maintain my active lifestyle. I've never known a more talented and intuitive chiropractor.	Susanne	<b>5</b>
<b><i>Glad I found them</i></b>	I feel like I've known Dr Maureen forever (not a year or so) She seems to know when & my stress will affect my muscles before I even realize that my pain is tension related. ALWAYS feel better after & it lasts! Get to know Kathy & Deb at the desk.SO helpful, understanding,flexible, Insurance Smart!TRY IT	Lee	<b>5</b>
<b><i>Best chiropractor Ive come across... by far!</i></b>	Dr. Rogers its brilliant. Has an integral perspective, and explains everything in a way that you can really understand why things are happening and how to avoid problems. The things that I learned from him related to my back and the way it works its invaluable.!!	Jorge	<b>5</b>
<b><i>Incredible knowledge and support</i></b>	I have known Dr. Rogers professionally for many years and have never been let down by his involvement with treating my patients and giving the best care imaginable. He has a gift for finding the root of the issue and has a vast degree of knowledge and experience in working with a varied base of pathologies. I trust him with even my most complicated cases. He has worked miracles in a short period of time even with my own care!	Nicole	<b>5</b>

<b><i>Provided relief when I thought not possible!</i></b>	I have two different issues, occasional low back spasms and a 10 year degrading left knee issue ending in sciatica on the right side. In both instances, Dr. Rogers treated each issue with success. I am able to move freely and pain free for the first time in 10 years, with repeated stretching. When you think that your pain may be degenerative and irreversable, check it out and maybe it is a treatable condition.	Jackie	5
<b><i>Chiropractic and Physical/Massage Therapy</i></b>	Jeremy and Christy have been the best with my car accident nearly a year ago. I would highly recommend Colorado Spine and Sport to EVERYONE.	Sarah	5
<b><i>Best Chiropractic Experience</i></b>	Maureen is hands down the best Chiropractor I've ever been to - she has helped me the most and is a delight as a person as well. I've been to many Chiropractors in my life, most of whom have been minimally effective, yet all of whom wanted to commit me to a several month contract for their services - not Maureen. She has great integrity, only advises the minimum treatment you actually need, and makes a difference every time you are there.	Sona	5
<b><i>Great care</i></b>	I've seen Dr. Jeremy R. for spine care, and have had excellent results. I had never previously considered chiropractic care, and have been very impressed with the benefits and immediate results. Highly recommended.	C.K.	5
<b><i>Good first trip</i></b>	Great first visit; very informative; told me everything that was going on, the cause, treatment and what to expect.	Harry	5
<b><i>Dr. Thomm</i></b>	Dr. Thomm was instrumental in my successful VBAC this past summer. I highly recommend her. She also helped a lot with my pelvic pain during pregnancy.	Julia	5
<b><i>AMAZING!</i></b>	Dr. Rodgers is the best! Helped me work through my separated shoulder injury and continues to make sure I am on the road to recovery. Super educated and actually takes time to explain what's going on to treat the problem not the symptoms. Hands down, the best PT, chiro, sports med out there.	Greg	5
<b><i>Excellent service</i></b>	I've been seeing Dr. Thomm for several years now. She's helped keep me running before, during, and after three pregnancies. Not only does she take the time to explain the specifics of why I'm experiencing discomfort, she also helps determine possible causes and teaches me some stretches to go along with the chiropractic treatment. She's also friendly and engaging.	Kathryn	5

<b><i>Invaluable</i></b>	Jeremy directed me on how to repair my ankle. I ruptured several tendons, which prevented me from almost all activity for five years. I worked with two other professionals with no success. If not for CO Spine and Sport, I would not be able to exercise, certainly not be able to enjoy my favorite activities: running and trail riding. I am forever in his debt. Every member of the office provided exceptional service!	Richard	<b>5</b>
<b><i>Strong back</i></b>	I had forgotten what a pain-free back felt like. Dr. Maureen Thomm has enabled me to live without an aching back. I walk better, sleep better, am more active in every way. Thanks Dr. Thomm.	Nancy	<b>5</b>
<b><i>Family Care</i></b>	Dr. Maureen Thomm has provided care for my 2 kids, now 7 & 8 years old, since they were toddlers! It has been so helpful for growing pains & general health. She has cared for me for the same length of time. Keeps me in line. Love her! :)	Melinda	<b>5</b>

<b><i>Excellent Chiropractic Care</i></b>	I am a new patient of Colorado Spine and Sport and am very pleased with the thoroughness and customer care I received from Dr. Thomm and staff. I will be recommending her to everyone I know.	Lydia	<b>5</b>
<b><i>Always great</i></b>	Jeremy is always top of mind when I get into a back or sciatic crisis and he works his chiro/PT magic to get me on track. This visit I worked with Christy on dry needling and the results were excellent. I had a pain free day! Everyone is always friendly and professional.	J.P.	<b>5</b>
<b><i>Miracle Worker</i></b>	Maureen has been my Chiropractor for 10 years. I can't say enough about her dedication and expertise. She knows how to manipulate the body back into alignment. In addition, the online appointment booking makes it so easy. I wouldn't go anywhere else!	S.L.	<b>5</b>
<b><i>Great Clinic</i></b>	Dr. Thomm is a very skilled chiropractor, but also an excellent physician. She pays attention to her clients and understands them both physically and emotionally, often identifying underlying causes of stress before the patient becomes aware of it. I threw out my back the other day, and I was actually kind of happy because I got to go see her. That's just how good she is.	Jennifer	<b>5</b>

<b><i>Always fixes me!!!</i></b>	I have been seeing Maureen off and on since 2008. I live a very active lifestyle and manage to take a tumble atleast once a year. Whether it be via bicycle or snowboard, Maureen always gets me straitened out and I am always grateful. Shes the only chiroprator in the Denver area I am able to recommend!	Amanda	<b>5</b>
<b><i>Thank you Dr. Thomm!</i></b>	I would highly recommend Colorado Spine and Sport. Dr. Maureen Thomm has done an incredible job diagnosing and treating my problems. <b><i>Excellent Service</i></b>	Dr. Thomm is excellent at her work and I would highly recommend anyone to go see her. She is thoughtful, engaged, knowledgable, & gentle. One treatment, and I am feeling better and excited to go back to her for more.	Kelly	<b>5</b>
<b><i>always exactly what i need</i></b>	Dr. Thomm is brilliantly intuitive, a great listener and educator, and very thorough! I always feel like I get exactly the treatment I need and my body is grateful.	Michelle	<b>5</b>
<b><i>Great service and doctor</i></b>	I was extremely happy with how my first visit went, and doctor Rodgers is excellent! He explained everything well and has me on a path to fixing my lower back pain.	Phoenix	<b>5</b>
<b><i>Tin Man</i></b>	I am a BMX rider and struggle to find PT programs that really help what I do. Dr. Rodgers went above and beyond to create new flexibility workouts that catered to my specific needs and within a few weeks of PT with him (after spending 4 months in PT at a larger hospital post brostrom and scope surgery with no change) I gained 15 degrees of movement and can finally ride again. I would recommend him to anyone who is considering surgery or struggling to find relief. Thanks CSS!!!!	Derek	<b>5</b>
<b><i>Lower back pain</i></b>	I know better than to lift anything too heavy, but there I go again. Dr. Rodgers always gets me straightened out in one visit if I don't wait too long. He's very good at making me feel comfortable and always explains what he's doing. He also goes over various exercises that I should be doing. Key words, should be doing! Very professional and a kind soft spoken person.	Diane	<b>5</b>
<b><i>LOVE CO Spine &amp; Sport</i></b>	My kids (7 y.o. & 8 y.o.) & I see Dr. Thomm at CO Spine & Sport, & have for almost 7 years! We are healthier & far less creakier as a result. <b><i>finally received a diagnosis</i></b>	Jeremy Rodgers was able to identify that I had a stress fracture in my foot and that I had a tendinitis issue as well	Christine	4
<b><i>If I knew then, what I know now</i></b>	Life teaches a lot of lessons and one that I learned after 18 months with Dr. Rodgers is that I should have focused more on my spine health 20 years ago. Doing so may have prevented back surgery. Regardless, better late than never. Thanks to Dr. Rodgers' regular treatments, my neck, back, hip are greatly improved.	Jim	5
<b><i>Pros or not pros we all need 2stay Healthy.</i></b>	I've been seeing Jeremy Rodgers since 2007, and I've never been disappointed. <b><i>First exam</i></b>	Great first exam - very helpful on diagnosing my condition and providing helpful guidance to me. Highly recommended to new patients looking for a providerw.	Darren	<b>5</b>
<b><i>Help with training</i></b>	I have been so fortunate to find this place. I have been to other sport chiropractors, I am being helped with my chronic back pain and heel pain. <b><i>Highly recommended</i></b>	Dr, Jeremy spent all necessary time to diagnose my problem and to understand my concerns. Very knowledgeable and kind, he explained to me in plain English his findings and treatment.	Jorge	<b>5</b>
<b><i>Awesome</i></b>	I've had lots of Chiropractors and he's the best by far. I would recommend him to anyone who is looking for a good health care provider.	Kelly	<b>5</b>
<b><i>Christi is amazing</i></b>	I have had lower back problems for 7 years with a handful of surgical procedures with little relief.  Dry needling with Christi is the only thing that relaxes the muscles in my back and shoulders.  She is friendly, informative, and cares which is refreshing in the medical field. I highly recommend her.	Andrew	<b>5</b>
<b><i>Adjustment</i></b>	I've been going to Colorado Spine and Sport for years and they always get me back on track. They are very knowledgeable and they pass that knowledge to me so I'm not coming in every week.	Eric	<b>5</b>
<b><i>Just do it!</i></b>	It took me 15 years to realize that I needed monthly adjustments to keep me on track. I would much rather come to Colorado Spine and Sport regularly than only when I am in pain! Jeremy, his staff and their new place are awesome!	Anne	<b>5</b>

<b><i>Trigger Point Dry Needling Really Works!</i></b>	I am one of those skeptics. I always doubt that anything new works. But after suffering for three weeks worth of sleepless nights from Delayed Onset Muscle Soreness (DOMS) I gave into my wife's nagging and went to see Maureen (a Chiropractor with Colorado Spine and Sport) who recommended trigger point dry needling with Christy. It worked! I can't believe it, the next day the sharp pain between my shoulder blade and neck was finally gone. It's been two weeks and it's still gone. Thank God!	Eric	5
<b><i>Orthotics</i></b>	Our daughter is in soccer, basketball, and track. Dr Rodgers treatment approach for knee and hip pain was extremely successful and informational!	Michaela	5
<b><i>physical therapy and chiropractic treatment</i></b>	This office has the most knowledgeable caregivers you can get, outside of a University setting. Dr. Thomm diagnosed and treated structural abnormalities that at least 3 orthopedic surgeons missed. Christy Kohler has been painstakingly helping me rehab my partial knee replacement, identifying specific muscles and securing my knee for days I don't even see her. I can't say enough positive things about this group.	Jeanette	5
<b><i>excellent. helpful.</i></b>	Dr Maureen Thomm has knowledge & insight beyond Chiropractic. After 'straightening me out', she's attended to other stress related issues I didnt even know I had. I ALWAYS feel better when I leave. She doesnt have me return unless I need it! I have new issues w my shoulder & she's worked on that too, but soon enough, referred me to Christy to check it out. The Admin Peple here - Deb & Kristen - have helped tremendously too. Friendly, professional, knowledgeable. SO GLAD I FOUND THEM	LEE	5
<b><i>Feeling better after all my crashes</i></b>	I met Jeremy back when racing with the Trek team. racing downhill, 4X and dual slalom. Having multiple crashes on the bicycle, cars and dirt bikes Jeremy was able to get me back together. And more importantly giving me the proper tools to keep myself in order, the right exercises to do, the right stretches to do for better spinal health. Thanks Jeremy!	Clay	5
<b><i>Dr. Jeremy Rodgers - Tremendous work on my hip pain</i></b>	I am an artist who is often standing and working on my art. I had developed some really painful areas in my hips and legs. Jeremy has worked very successfully on these areas and I highly recommend him! He is extremely knowledgeable and very kind and gentle when working on my pain. My areas of concern are improving greatly with each session. I consider myself very lucky to have found such an amazing Doctor.	Terry	5

<b><i>Jeremy Rodgers is the Best</i></b>	Jeremy is an excellent and caring chiropractor and all around physical care specialist. He has helped me with a number of ailments which are now pretty much under control.	Mark	<b>5</b>
<b><i>Top notch facility for taking care of the whole body</i></b>	I was impressed with this professional, full-service facility with chiropractic, physical therapy and medical. The staff is very friendly and their evaluations are very comprehensive with and up-front treatment plan. All of the costs were laid out very clearly. Looking forward to my next visit!	T.F.	<b>5</b>
<b><i>Feel good</i></b>	I recently had such bad back pain I couldn't stand up straight. Dr. Thomm worked her magic and it's now much better. I highly recommend Dr. Thomm . Your body will thank you.	Nancy	<b>5</b>
<b><i>First Impressions</i></b>	i was very impressed with first visit. Jeremy struck me as extremely knowledgeable and caring. he seemed more interested in straightening my neck and back than his pocketbook. i also felt 100 percent better after leaving.	Lydia	<b>5</b>
<b><i>Very efficient and effective</i></b>	I went to see Jeremy because I could not figure out if I had torn muscle or done something else. Jeremy figured out very quickly what I had done and explained a whole plan to get me back out there. This was an injury that could have lingered for months but I should now be fine in a week.	Jason	<b>5</b>
<b><i>Relief and improved flexibility</i></b>	I visited Jeremy to get treatment for a sore and tight upper back / neck that had bothered me for a couple weeks. He tested flexibility and located the source of my issue. He treated me with heat, a couple adjustments, and instructed me on stretches to improve my condition. I went home feeling relief and improved flexibility.	Chris	<b>5</b>
<b><i>Highly Recommended</i></b>	The staff is very friendly and courteous. A pleasure to work with. Dr. Thomm is extremely knowledgeable and was able to diagnose and treat back issues that I had been suffering from for some time. <b><i>Great doc</i></b>	Jeremy is an excellent sports doc I've used him many times with great results. What's really nice is not having to wait a month to get in like other docs can be so you can talk and see him on a regular basis to tackle your problem	P.R.	<b>5</b>
<b><i>Christy Kohler fixed my plantar faciitis!!!</i></b>	I am very grateful to Christy Kohler, PT, for fixing my plantar faciitis which had been tormenting me for 5 months (and many visits to a different PT). It took about 2 months of dry needling, stretching, exercises, ultrasound and manipulation but the result seems miraculous. She is very knowledgeable, thorough and has a great table-side manner. The whole office is very calm and well-run. I would definitely recommend Christy.	Jim	<b>5</b>
<b><i>CPAP mask &amp; neck muscle spasm</i></b>	When one of the muscles in the deeper regions of my neck, I recognized that it began when I changed pillows, but once the spasm started, nothing relieved it for more than a short time. In the initial workup, Dr. Rogers recognized that the CPAP mask strap was stressing that muscle and suggested a simple remedy that worked: putting a cutout piece of rubber from a mouse pad to cushion that region!!! Thanks!!!	Philip	<b>5</b>
<b><i>Excellent Rehabilitation</i></b>	I am an orthopaedic surgeon and saw Dr. Rodgers for my recent shoulder separation sustained during a skiing injury. He was extremely knowledgeable in shoulder anatomy and the latest rehabilitation protocols for AC injuries. Staff is very friendly and facility overall is excellent. My only regret is that I will not be able to follow through with him, as I do not live in the area, but he set me on a good track.	G.M.	<b>5</b>
<b><i>Jeremy is exceptionally talented</i></b>	He has treated me for a number of injuries over the years and I have never encountered anyone as skilled at diagnosing and treating athletic injuries.	Jon	<b>5</b>
<b><i>Excellent care</i></b>	I am always amazed at how quickly I feel the positive affects of Dr. Thomm's care. She is so skilled at her practice.	Sue	<b>5</b>
<b><i>Experience and Expertise</i></b>	Dr Rodgers has extensive experience in sports related injuries, and he can do X-Rays in-house or prescribe MRI's, enabling him to make an accurate diagnosis, which really helps. The diagnosis is followed by a treatment protocol and prognosis, again, both based on probably having seen the same condition numerous times previously.	Buzz	<b>5</b>
<b><i>Awesome, Helpful, Friendly, and Thorough</i></b>	Amazing, helpful staff. Dr. Rodgers is easy to work with and is excellent at explaining everything he is looking at and training and rehabilitation exercises. I have already recommended Colorado Spine and Sport to numerous friends, family, and fellow athletes.	Kim	<b>5</b>

<b><i>Fantastic Folks and Great Results</i></b>	Dr. Rodgers and his entire staff ROCK! Every time I go in and see him, he is professional, warm, personable, and helpful. <b><i>Worth the drive!</i></b>	I have been to several chiropractors over the years and always end up coming back to Dr. Rodgers despite the longer drive for me. His attention to detail and professionalism are hard to beat. He has helped me stay healthy and active despite my back issues. He takes the time to help you understand what is going on and how to make it better. The office staff are always warm, helpful and friendly as well.	LP	5
<b><i>leg problem</i></b>	<p>My left leg had been painful for many years and no one could seem to fix the problem. The pain would keep me up at night and I could not get in any comfortable position.</p> <p>Maureen took the time to figure out the problem and gave me a great treatment plan. I am almost pain free and it is a life changer. I had to stop my daily walking with my dog as well as ballet and other activities. She is a marvel and I feel blessed to have found such a warm and healing place with top notch staff.</p>	Pamela	5
<b><i>Spends the time</i></b>	I like that Jeremy spent the time to understand my chief complaint and did not just form an opinion from xrays. He took the time to explain what was happening to me in terms I could understand and clearly laid out my options. I appreciate that he took this time where many other appointments you feel rushed and or Doctors do not take the time to explain what is happening. Very friendly and welcoming.	David	5
<b><i>Great team focused on results</i></b>	I've been thrilled with the service I've received here. Dr. Thomm came up with a plan for me that is working - her goal is to get me out of there, which is helped by the fact that she talks to Christy (PT) and Victoria (massage/soft-issue work). When there is legit collaboration, patients usually get better quicker, and unlike other businesses I've been to in the past, the teamwork here is really appreciated. They know me, what the treatment course is, and how to get me well. Good people.	Adam	5
<b><i>Jeremy is great</i></b>	When I play too hard and hurt my ankle, back, neck... Jeremy always gets me back to normal quickly. Easy to find office just off Hwy 36 and easy to use online appt booking system.	Lowrey	5

<b><i>Professional</i></b>	I've been battling some lower back tightness for a while and Victoria was very knowledgeable and was able to help me out.	Brian	<b>5</b>
<b><i>Arm...this time</i></b>	Have seen Jeremy Rogers several times throughout the years (regarding various injuries) and he has been a great help in diagnosing and offering a good recovery plan.	Justin	<b>5</b>
<b><i>Can walk, golf and ride again</i></b>	For nearly two years, I had difficulty even walking, and was convinced that I never would the same again. I tried everything, but nothing was working, so as a last resort, I contacted Colorado Spine and Sport, even though I was skeptical of the chiropractic possibilities. How wrong was I!? After two visits and adjustments with Maureen, the pain level decreased by at least 50%. Then after two more, I was walking and golfing almost completely pain free. She's made me a new and happy man.	Chris	<b>5</b>
<b><i>Low back pain</i></b>	Dr. Thomm was great explaining my low back issue to me and helped me feel better within the first visit.	A.D.	<b>5</b>
<b><i>Dr. Jeremy Rodgers</i></b>	Dr. Rodgers is very intelligent and incredibly helpful. He has helped multiple member of my family and we all trust him. A few years back he helped me get off crutches and back to running in just a matter of weeks! As an athlete, I think it is important to see someone who understands my high intensity of training and activity. I would strongly recommend Dr. Rodgers and his entire clinic.	Lauren	<b>5</b>
<b><i>Great Results</i></b>	I had lower back and neck problems that were causing numbness to shoot down my right arm into my fingers. Dr. Rodgers worked with me to alleviate the numbness. Part of the reason for this was where my CPAP was hitting on my neck. The adjustments and the other recommendations he made were spot on. He and his staff are exactly what I needed and I highly recommend them.	Shannon	<b>5</b>
<b><i>First visit</i></b>	Met Dr. Thomm. Very thorough first exam followed by adjustment. Woke up next morning feeling better than I have in over a month! Looking forward to next visit.	J.S.	<b>5</b>
<b><i>Fantastic</i></b>	Have been seeing Dr. Christy Kohler for PT on my foot and ankle. Best PT I've ever had. Victoria Kingsbury, massage therapist, is also great. I highly recommend them both. Finally, the office staff is terrific.	M.M.	<b>5</b>
<b><i>Highly recommend! Effective!</i></b>	I have been receiving maintenance chiropractic care (every 8 weeks) and am highly pleased with the adjustments from Dr. Maureen Thomm. She is skilled, knowledgeable, and I am always pleased with the results (no pain, less tension, more mobility!) from the treatment plan she has built for me.	B.K.	<b>5</b>

<b><i>Mrs.</i></b>	I have been going to see Maureen for a number of years on an "as needed" basis. She is always tuned into my particular issue and provides me with appropriate assessment and follow up needs. The staff is very accommodating and try to schedule me as soon as possible and are very timely in sending an e-mail reminder. Their new location is fabulous.	Betty	5
<b><i>Jeremy Rodgers will fix you!</i></b>	Jeremy has taken care of all of my running issues over the years. In the past, it had taken me months to recover with physical therapists. That was until I discovered the wisdom of Jeremy Rodgers. You must check him out. I can now enjoy carefree running, thanks to Jeremy. His new office on McCaslin is really nice as well. Don't forget to check out Christy Kohler for dry needling. She has helped me so much. Finally, you can book appointments online 24/7 on their spectacular website.	Dan	5
<b><i>Fabulous place to heal</i></b>	I started seeing Dr. Thomm about shoulder tightness and pain while cycling. She listened carefully, was honestly interested in me, and fixed me right up. Sadly, in July, I had a serious bike accident that resulted in major shoulder surgery. Christy, the wonder therapist, has since taken care of my rehab needs. She masterfully walks the line between gentle and tough and has me well on my way to recovery. The office has a culture of kindness. Jan, at the front desk, is the nicest person ever.	L.M.	5
<b><i>Jeremy Rodgers went to Hogwarts</i></b>	While he doesn't use a wand, he does many wizard like things. For example, he will very accurately predict how much the pain/discomfort will decrease over time. He also always seems to know the correct treatment. Before seeing Jeremy, I was skeptical of chiropractors in general, but after his work with me on several different issues, I am a convert.	K.L.	5
<b><i>Always a positive visit</i></b>	Dr. Maureen is not only an excellent chiropractor that truly wants to help you feel your best, she also genuinely cares about you on a personal level. She always makes you feel welcome and never fails to ask about my family and what all we're doing. Their office space is also very comfortable and the staff is wonderful!	K.O.	5
<b><i>Excellence</i></b>	Dr. Rogers and staff are wonderful caring, considerate and strive for excellence in every way. I have been seeing Dr. Rogers for many years for my cronic lumbar & cervical spine issues. His treatments have prevented major flare ups and other complications.	Debbie	5

<b><i>Best of the best</i></b>	<p>Dr. Rodgers' knowledge and practice have made such a difference in my lifestyle, after solving my back and knee issues. I'm able to do all the physical activities I want again, without pain and long recovery times.</p> <p>If you're having any back or joint issues, you owe it to yourself to get his diagnosis and treatment plan. Don't suffer any longer!</p>	Jeff	<b>5</b>
<b><i>Immediate relief</i></b>	<p>After recently missing my regular maintenance appointment due to an unexpected trip to Sydney, I got an appointment with Dr. Rodgers upon my return. Thirty-six hours in an airplane seat over two weeks had been brutal on my shoulders and lower back. Dr. Rodgers had me feeling much better almost immediately.</p>	Jim	<b>5</b>
<b><i>Colorado Spine and Sport is the Best</i></b>	<p>I've been seeing Dr. Christy Kohler, PT for residual issues for an accident 11 years ago. I had been having problems with knees, feet, and back for years and been told by doctors just to not run or kneel. Christy is helping me get back to an active my life and helping me feel great. I didn't know a thing about dry needling but it has made a huge difference. Thanks for being there for me.</p>	E.S.	<b>5</b>
<b><i>Colorado Spine and Sport is top notch</i></b>	<p>I have been going to Jeremy Rogers for many years and he is a true medical professional who not only helps with pain reduction but educates me on how my body is working and how to prevent future issues with my neck. I highly recommend him and the rest of the CS&amp;S to anyone with neck and back issues.</p>	Peter	<b>4</b>
<b><i>Excellent P.T. and Chiro practice.</i></b>	<p>Jeremy Rogers has been very helpful any time my husband and I have had P.T. issues, mostly sports related. Highly recommend for chiropractic adjustments and physical therapy. Massage therapy is available and appointments are easy to make.</p>	T.L.	<b>5</b>
<b><i>Excellent</i></b>	<p>Insightful and experienced diagnosis and treatment from Dr Rodgers. The cost is extremely low compared with allopathic medicine, while the results are higher.</p>	Buzz	<b>5</b>
<b><i>Always's informational with great results</i></b>	<p>Dr. Rodgers will always take time to explain the details. I seem to ask a lot of questions and he certainly explains what's going on, I appreciate that. I like to know what's going on with my body.</p>	SNL	<b>5</b>
<b><i>Late to my appointment more than once</i></b>	<p>Jeremy and Christie are knowledgeable and helpful. Unfortunately, both have been late to more than one appointment. In addition, they have confused my treatment with another patient's and I was the one who discovered the error.</p>	No	<b>2</b>

<b><i>Dr. Thomm</i></b>	After going to several doctors and physical therapy programs I still had a lot of back pain. Dr. Thomm explained to me why I was having back pain and started a treatment program. I am feeling so much better. I am able to go through my day and do the things I used to do before the accident. Thank you Dr. Thomm	L.K.	<b>5</b>
<b><i>Great Service</i></b>	I go to CS&S for both PT and chiropractic care. Kristy had been able to help me make significant progress with my chronic hip pain via dry needling and exercise. She is very knowledgeable and a pleasure to be around. Jeremy (chiropractor) is very well educated in all areas physical health, not just chiropractic. He is truly concerned about healing his patients, but just making money. He is always thinking about solutions that could help, even if they are outside his practice. I highly recommend!	J.Z.	<b>5</b>

<b><i>Great experience</i></b>	Christy Kohler, DPT is sharp, obviously experienced, and does a brilliant job sharing her thought process.	Robert	<b>5</b>
<b><i>So pleased!</i></b>	I have an acute debilitating pain in my L3 & L4 periodically. With every attack, I see Jeremy Rogers and he informs me of the cause of my pain, reminds me how to keep it at bay and gives me just the right amount of appointments to see that the pain does not return. Initially, in 2014, I saw him for my low back but in the process he identified that my hips were out of alignment and consequently fixed my 20 year old knee problem. He is the first Chiro to get results for the long term!	Jackie	<b>5</b>
<b><i>Thanks</i></b>	Had a great appointment with Jeremy Rodgers. He provided lots of additional information that will help us navigate doctors, insurance, etc. Thank you!	Harry	<b>5</b>

<b><i>Highest Chiropractic care and Physical Therapy</i></b>	I went to Dr Rogers after having a complicated and problematic injuries that resulted from being struck by a car while out running. From the start I had a good feeling given his sports background. Knowing he would understand the urgency to return my prior life of being active. His diagnosis and understanding of the body mechanics aided greatly to pinpointing difficult problems. The way that he breaks down the problems with a cause and effect showcase his logic and vast experience.	Darren	5
<b><i>Best Chiropractor</i></b>	Initial exam by Dr. Rodgers was very thorough and informative. He actually asked how the accident happened and how I was sitting and my trajectory during the accident. Nobody else in the MD or PT world did. I don't believe in chiropractors and he was a last-ditch effort. I felt good after the first adjustment. I'm now optimistic and hoping for the best. I will update next week.	Milena	5
<b><i>The Best for Sports Injuries</i></b>	Always go here first, and go immediately after an injury - waiting is not helpful. Dr Rodgers can diagnose (including visual ultrasound) and treat from a large technical knowledge base and experience with sports injuries. If it's a major injury, he will refer you to the best surgeon for your specific situation.	Buzz	5

<b><i>Outstanding</i></b>	Jerem is an outstanding chiropractor. He consistently strives to heal me as quickly as possible. His diagnoses and adjustments are spot on and he suggests simple exercises to prevent relapses.	Dave	5
<b><i>Great experience - one recommendation</i></b>	Really liked everything (staff, process, communication, scheduling) and would recommend to others. One area of improvement would be for their paperwork to be electronic instead of emailing forms and expecting people to print, fill out at home and bring in. Just too manual and a pain for the customer in this day and age.	B.R.	4
<b><i>A chiropractor you can trust!</i></b>	Jeremy Rogers has been my chiropractor for more than 5 years. He is fantastic! He provides quick efficient and effective care. He also takes the time to share self care tips to keep you healthy. He is an athlete and respects the Boulder lifestyle and takes the time to know and understand his patients.	A.O.	5
<b><i>Terrific, well-rounded experience</i></b>	I recently trained for what was, for me, an aggressive physical undertaking. My 108-mile trek went off without a hitch and I'll be forever grateful!	Mark	5

<b><i>Excellent treatment plan by Dr. Rodgers</i></b>	After sustaining a lower lumbar problem due to overtraining, Dr. Rodgers worked with me on physical therapy exercises and a workout plan that would help me to heal. Over the course of a couple months, my back feels great and I am so much smarter about how to avoid problems in the future. He listened to my concerns and was very thorough in designing the right plan for me and my situation.	S.B.	<b>5</b>
<b><i>Shoulder, Back and neck</i></b>	I've been going to Dr. Jeremy Rodgers for several years and he is my go to for pretty much anything. He is extremely knowledgeable, takes the time to explain in great detail and will point you in the right direction. His staff is always personable and the service is timely and efficient. I will always seek his professional advice prior to any musculoskeletal concerns.	S.L.	<b>5</b>
<b><i>The only PT that's helped!</i></b>	After three different PTs that were unable to work with an issue with my Peroneal Tendon, Dr. Rodgers was the only one to provide a clear, effective treatment program. Appointments are efficient, treatment protocol options are clearly explained, and most importantly, he was the ONLY PT of the 3 I've seen in Boulder that clearly understood the problem, made accurate notes on my case, and reviewed them prior to our session.  I would strongly recommend his services!	Lauren	<b>5</b>
<b><i>Great experience - one recommendation</i></b>	Awesome therapist Nice front desk Good location Would like to be able to schedule and see my bills online	B.R.	<b>4</b>
<b><i>couldn't find it</i></b>	they moved, and I was not able to find the new location in time to get to my appointment. I was late, and they couldn't re-schedule my appointment that day, so I was unable to see anyone.	S.H.	<b>1</b>

<b><i>Excellent Results</i></b>	I have been to see Dr Maureen Thomm in prep for a VBAC delivery, which was successful, and for a recovery from a lower back injury and she was great. In just a couple of visits I began to feel much better. I have also seen Christy Kohler, PT, in the practice and she has been really helpful in offering tools to gain strength and specific tips on how to improve form. Office Staff is very helpful.	K.H.	5
<b><i>Very Impressed</i></b>	My husband and I are both patients here. I see Dr. Thomm, whom I absolutely adore. She has gone above and beyond for me in more ways than one, even when she didn't have to. Including calling me on a weekend...Wow. Her work is great, and she really takes the time to listen to your concerns. My husband sees Dr. Rodgers and he is very pleased with his care as well. He's recovering well from a foot injury, and learning things to help him along the way. We both plan to be life long patients. :)	Nicole	5
<b><i>Truly 5*</i></b>	I have been seeing Dr Rodgers for several years now. I have recommended him to many of my friends and families. For any problems with injuries, joints or bones I would first consult him so that you have the full understanding of the problem before consulting with Orthopedics.	MKT	5

<b><i>Complete Satisfaction</i></b>	I have been coming to CS&S for close to 15 years and am very happy with the results. Dr. Rodgers is the consummate professional and has keep me pain free for years. He is in tune with every aspect of my physical health and has consistently offered good advice on staying healthy. I would recommend him and CS&S to anyone in need of Chiropractic services.	Peter	<b>5</b>
<b><i>Feel Much Better!</i></b>	I needed to have treatment for a severely sore and stiff neck. I was able to make a same day appointment. 24 hours later I feel SO MUCH BETTER!	sam	<b>5</b>
<b><i>Neck Pain</i></b>	I'm an artist and have been working on a large body of work and my neck was killing me! Dr. Rodgers is in the process of making my neck pain go away...he's amazing!	Terry	<b>5</b>
<b><i>Excellent care, friendly staff</i></b>	Dr. Maureen care about how I am doing, has informative answers to my questions, and knows her field.	Jennifer	<b>5</b>
<b><i>Back to playing Pickleball without pain!</i></b>	After being sent home with a few knee exercises from an orthopedic surgeon and no improvement in pain, I took a friend's advice and went to CO Spine and Sport. The team is extremely knowledgeable and professional. They correctly diagnosed the problem and through special techniques such as needling, cupping and massage, along with an exercise routine that strengthened my knee, they were able to set me on the path to pain-free movement! I highly recommend this wonderful group.	Suzanne	<b>5</b>
<b><i>Jeremy knows his stuff!</i></b>	I have seen Jeremy Rodgers for several years now after a referral from a running community participant. For the same nagging issue, I will do silly movements that places me as a 9-10 on the pain scale and within 3-5 visits, Jeremy has me back to 100%. Jeremy has also prescribed reasonable exercises that keeps me healthy! Thank you Jeremy!	Jackie	<b>5</b>
<b><i>Dr. Rodgers helps keep me moving!</i></b>	I've been in Dr. Rodgers care for several years and continue to be impressed by his insightful knowledge. I originally went to Colorado Spine and Sport for what I thought was a back issue that turned out to be a hip problem. With regular treatments and a home exercise program, the issue is under control. Recently, shoulder and neck tightness was traced to a bad bike set-up. Dr. Rodgers did a bike fit for me and all is good. I'm 65 and greatly appreciate Dr. Rodgers' efforts to keep me moving. <p><b><i>A+ Highly Recommended</i></b></p>	<p>Both Dr. Rodgers and Christy are a great 1-2 punch. I've been to a few other places and this is the best holistic approach I have found. The communication within the office is great (from original diagnosis to on-going therapy). They know my injury and how to best treat it. They also want me to get better and get the heck out of there. They do not schedule unnecessary visits or keep you on too long. I have found this is a big issue with PT. They truly care about my well being and it shows!</p>	<p>CJ</p>	<p><b>5</b></p>
<p><b><i>always there for me</i></b></p>	<p>I've been a patient of Dr. Maureen Thomm's for many years. I have never had a more caring and compassionate person to care for me. She always has time to listen and be a sounding board for me even when I think I might be nuts! Her skillful adjustments and careful attention to my special needs never fails to make me feel that I'm in the right place with the right provider.</p>	<p>Nora-Elle</p>	<p><b>5</b></p>
<p><b><i>Always goes the extra mile!</i></b></p>	<p>Love the work Jeremy does! I have a rib that goes out a few times a year and he always seems to fit me in, (even at the end of a long day) to get me back to comfort. Jeremy, through the years, has worked on my ankle, after a bad dance accident, that's right, dancing, when I had a bad sprain; my knee after a ski accident, my shoulder and my back. He is extremely knowledgeable and thorough. He also looks at trying to keep your costs down. Great Experience!</p>	<p>Dana</p>	<p><b>5</b></p>
<p><b><i>Always a positive experience</i></b></p>	<p>Dr. Jeremy Rogers has been working with me for over eight years and has always provided excellent care for my issues. Problems ranging from simple spinal misalignment to nerve impingements, to bulging discs - his strategies for treatment have always been right on.</p>	<p>L.A.</p>	<p><b>5</b></p>
<p><b><i>1st Appt</i></b></p>	<p>I had my first appointment yesterday and could not have been more pleased with the attention to detail by Janice, the patient care coordinator and Jeremy Rodgers. Jeremy asked very specific questions regarding my injuries and set up a clear treatment protocol explaining the cause and treatment at each step. I have visited with a number of medical offices in the year since my accident and can tell that this office will be among the best in helping with my recovery.</p>	<p>Sean</p>	<p><b>5</b></p>
<p><b><i>Recommendation</i></b></p>	<p>I highly recommend Colorado Spine and Sport. Dr Jeremy Rodgers is extremely knowledgeable and professional. Dr Jeremy Rodgers knowledge runs deep and he knows exactly how to get your recovery started quickly. I came to him with a strained calf. I feel confident that my road to recovery will be quick. <b><i>Amazing service to humanity</i></b>	I've had one appointment so far and was extremely impressed. Very upfront and does not waste time. I've been to a great deal of injuries in my life and this place seems incredible so far.	Alan	<b>5</b>
<b><i>Would not go back, would rate 0 stars if I could</i></b>	I would not recommend this clinic. My appointment times were always at least 10 minutes behind the scheduled time. If I wasn't better in a few weeks, Dr Jeremy recommended getting a cortisone shot. I wish I had never taken this advice. Any other health care providers I have seen since then have said that was not the appropriate route to take. The clinic I went to was Longs Peak. I ended up having to start physical therapy again at another clinic to fix the mistakes that occurred at this one.	Anonymo	<b>1</b>
<b><i>Fixed My Hotfoot</i></b>	After months of short appointments with other chiropractors, I decided it was worth spending a few extra dollars in hopes of seeing some real improvement. Most chiropractors only schedule you for fifteen-minute appointments; however, Dr. Rogers schedules his patients for thirty minutes which enables him to take a more in-depth and comprehensive approach, determining the root cause of an issue rather than just treating the symptoms. When I started seeing Dr. Rogers, I was having hot foot and me	Benjamin	<b>5</b>
<b><i>Great experience with chiro and PT</i></b>	I see Dr Maureen Thomm and Christy Kohler, the physical therapist. I am pleased with the care I received from both practitioners. M and C are interested in how my physical being is and also how life in general is going. They are concerned w/my long term health (and not just keeping me coming back for my copays). The front desk staff recognizes and greets me when I come in. I've not had any feedback from my insurance company, so the billing staff must know what they're doing, too.	Jennifer	<b>5</b>
<b><i>Excellent Initial Visit</i></b>	Had an initial visit with Dr. Jeremy Rogers regarding running-induced cramps that were sever but infrequent (so, maybe hard to pin down the cause). Dr. Rogers took the history, asked appropriate questions, examined the offending muscles, and finally homed in on a likely cause and suggested exercises and treatments to mitigate.	Stephen	<b>5</b>
<b><i>Car accident recovery</i></b>	Dr. Rogers has done a great job of helping me recover from a severe car accident. I suffered multiple injuries and he has helped to diagnose and treat them all. He is very knowledgeable, explains things very well, and provides detailed recovery plans/treatment.	Jeffrey	<b>5</b>
<b><i>Love Dr. Thomm</i></b>	Maureen Thomm is amazing. She listens to you and gets to the root of the problem. I am a repeat customer!!!	M.B.	<b>5</b>

<b><i>The best chiropractic/PT office!</i></b>	Jeremy Rodgers has been a life saver. I was in a car accident which caused two herniated disks that caused an immense amount of pain. I initially saw a different chiropractor at first who wasn't helping in alleviating the pain but one visit with Jeremy and he referred me immediately to a psysiatrist to help manage the pain as well as accommodating his schedule to see me as quickly as possible. I can't express enough my gratitude to Jeremy and the rest of the staff at Colorado Spine and Sport.	Rebecca	5
<b><i>I feel like me again</i></b>	I have been seeing Dr. Jeremy Rodgers for the past few months and we've turned around my back health in a big way so that I can start to enjoy the lifestyle that I've been accustomed to for the past two decades.  The treatment which is a combination of adjustments coupled with exercises to prevent re-injury have been amazing. So pleased.	Noah	5
<b><i>Gentle treatment</i></b>	Jeremy always knows how to realign my body to lessen stress and strains. He accommodates last minute appointment requests to the best of his ability. Very caring doc!	Linda	5
<b><i>Improved</i></b>	I have a back that periodically locks-up in a bad position. One visit to Dr. Thomm and it's much improved. I stand straighter and walk better. And the pain is gone. Thank you Dr. Thomm.	Nancy	5
<b><i>Mother Runner</i></b>	I am an older mom who runs ultras. I've had some issues with my lower back since I was pregnant with my first kiddo 5 years ago. As I've gotten back into shape and running, it wasn't self resolving and in fact was getting worse. Dr. Thomm diagnosed and is treating my problem. I am much improved, most of my discomfort is gone and have no doubt I will be 100% at some point in the near future. This place is great and has a nice whole body approach. I also like you can book online. Thank you!	C.H.	5
<b><i>Traveling 45 min. just to be adjusted by Dr. Rogers</i></b>	I have been a patient of Dr. Rogers for a few years now, and am absolutely happy with the service I receive. I don't feel just like another patient, but Dr. Rogers knows who I am, what I do, and the history of my chiropractic needs. I love being able to schedule an appointment online and the program he uses for it is super easy, even for someone as technology challenged as me. When I get there, all his office staff is always so friendly. I can only recommend Dr. Rogers' office. He is wonderful!	Netty	5

<p><b><i>Appointment with Jeremy Rogers</i></b></p>	<p>I have seen Jeremy numerous times over the years for a wide range of sessions including back adjustments, running gait analysis and bike fits. He is extremely thorough and puts an emphasis on either prudently continuing one's activity if injured or getting one back to activity as soon as reasonable. Aside from treatment, prescribing specific exercises and therapy are all very thoughtfully prescribed and effective for getting and staying healthy.</p>	<p>Michael</p>	<p><b>5</b></p>

<p><b><i>years of the best service</i></b></p>	<p>I starting seeing Dr Rodgers 10 years ago, with a running injury. Since then he has been treating my entire family for mostly sport related injuries. Dr Rodgers is simply the best at what he does. He does not just "crack" your back! He heals us, and teaches us how to prevent the injury from occurring next time. He explains things in great detail, and always makes time for us. I would recommended him over the many doctors that I have felt with in the past.</p>	<p>steve</p>	<p><b>5</b></p>

<b>Dr. Rodgers gets it</b>	<p>I'm a 65+ male that cycles 100+ miles a week during the season including lots of "hills". I also had back surgery a few years ago prior to finding Dr. Rodgers. <b>Great Provider of Message, PT, Chiro</b>	<p>My family and I have been seeing Dr. Rodgers for more than 15 years, ever since I had a major bike-car wreck in 2002. <b><i>Great experience and great results</i></b>	As someone who has spent ALOT of time with orthopedic and physical therapy specialists, I had an exemplary experience working with the team at Colorado Sport and Spine. <b><i>The pace for athletes that need to get back out there quickly</i></b>	I have been working with Jeremy for years. As a 49 year old soccer player I am bound to have issues. Jeremy's chiropractic work keeps injuries at a minimum. Additionally, the great advice I get helps me navigate pre and post workouts to minimize issues. My daughter was very upset when she sprained her ankle badly the week before a very large volleyball tournament in Denver. Jeremy saw her immediately and was able to get her on the court and productive with an amazing wrap job and PT.	Mark	<b>5</b>

<b><i>Excellence All Around</i></b>	I've been treated by Jeremy for over 10 years. He has solved issues that I was plagued with for years. He got me back on the bike from San Francisco to Los Angeles when others thought I was done riding (that was 2007). I go to him when I think I'm crippled and can't walk, and I go to him for maintenance. I send friends to him with the same great results. AND his office staff is as capable and caring as he is. <b><i>Phenomenal Care</i></b>	Jeremy, Victoria, Deb, and Elena have been absolutely wonderful. I was in a bad car accident in September. My doctors did not go through the details of my MRI to the depth that Jeremy did. He made me understand my injuries, and has provided excellent care. I've moved my PT to him as well. Co Spine and Sport was recommended by several co-workers, and now I strongly recommend them!!	Cyndee	<b>4</b>

<b><i>Dr. Rodgers keeps me going</i></b>	I had back surgery about nine years ago and was doing fine until the sciatica returned. Hoping to avoid "the knife", I found Dr. Rodgers. He quickly diagnosed the sources of my issues and applied the appropriate treatments. As a "seasoned" cyclist that rides about 100 miles per week nearly year-round, I need regular adjustments. This, along with Jeremy's prescribed at home core exercises and stretching keeps me going on my bike. Thanks, Dr. Rodgers!	Jim	<b>5</b>

<b><i>sciatica / piriformis - Hamstring intense pain</i></b>	I went in with severe pain down my hamstring and could barely walk. I had an adjustment with Dr. Rodgers and followed up with PT/Dry needling with Christy K. The next morning, after a hot shower to get the muscles warm the pain level of nearly a 10 dropped down to a dull ache, I can walk and just about back to normal. Amazing, I can't imagine how people deal with this all the time and don't do anything about it.	Scott	<b>5</b>
<b><i>Great service - great results</i></b>	Got tired of seeing other doctors, and getting no results (aside from endless referrals for X-rays and MRIs). Christy and Jeremy have helped me make more progress in one month than other doctors have made in years.	S.G.	<b>5</b>

<b><i>Jeremy helps me keep the "old man" at bay</i></b>	Last Sunday, I participated in a 65 mile gravel cycling race with 5000+ feet of climbing followed by a bone rattling, steep decent on a narrow "washboard" road. Needless to say, my neck, shoulders and lower back were a bit sore. Fortunately, my regular appointment with Dr. Rodgers was the following Tuesday. Post-treatment, I walked out of Colorado Spine and Sport already feeling much better. This old guy owes Dr. Rodgers a debt of gratitude for helping me keep moving. Thanks, Doc.	Jim	<b>5</b>
<b><i>Incredibly knowledgeable , professional and conservative</i></b>	I had been searching for a chiropractor whom was particularly specialized in women,Ãs health to treat my chronic hip pain after two natural labours. From the moment I entered the clinic, I was warmly greeted and treated with the utmost respect and care. Maureen took so much time in talking with me to understand my issues and background. I never felt rushed or in a hurry. She was very thorough and knowledgeable... and has a cracker personality. I highly recommend Maureen and her team. Xx	Bianca	<b>5</b>
<b><i>Thank you</i></b>	Dr. Thomm is kind, personable and a great Chiropractor. In a world where we are made to feel like a number this was definitely not the case at this office. I appreciate that!	Kelli	<b>5</b>
<b><i>Can't say enough good things about Christy!</i></b>	I've been so appreciative of Christy's approach to addressing my back injury. <b><i>Awesome!!</i></b>	I'll keep this short and very direct. For years, I've had lower back problems (slightly bugling disk) and visited with many a specialists (including having injections with minimal results), so I finally hooked up with Dr. Thomm. After a series of adjustments, she has given me my active life back (that had been limited for many years) with little or no pain. She's a SAINT!!!	Chris	<b>5</b>

<b><i>Smart and comprehensive care</i></b>	Dr. Rodgers is an excellent diagnostician and practitioner. He takes a comprehensive history of the medical issue and then determines the best way to treat it. He has treated both my son and myself and we could not be more satisfied with the level of care. Excellent doctor.	J.W.	<b>5</b>

<b><i>Excellent</i></b>	I have been seeing Dr. Rodgers for ten years and he has provided excellent care of my spinal problems ranging from basic misalignment issues to herniated discs. Highly recommended!	L.A.	<b>5</b>
<b><i>Transformative</i></b>	I met Jeremy through a running community member. I regularly used a treadmill and elliptical but found that I developed intermittent low back pain for many years. I visited Jeremy with an acute low back strain and after a thorough exam, I found that my back pain was due to poor muscle tone and form. After some manipulation and a few visits, I received a bonus result from his education and treatment, my new alignment permanently treated a chronic knee pain on stairs as well. Thank you!	Jackie	<b>5</b>
<b><i>10 years of service</i></b>	Dr. Thomm has taken good care of me for over 10 years. She is amazing and always listens to my needs. Thanks!	Karen	<b>5</b>
<b><i>Mild herniation, facet/piriformis syndrome</i></b>	Doctor Jeremy in just one session knew exactly what my problem was and I went from not be able to sleep at night to a very comfortable and painless feeling. Thank you so much for your great job, I'll never forget.	Claudia	<b>5</b>
<b><i>Highly recommend Dr. Rodgers</i></b>	This was my first visit to Dr. Rodgers. I was impressed by the care and knowledge he provided. I am an elite endurance runner with calf pain that is hindering my training for the Olympic Marathon Trials. Dr. Rodgers was considerate of my situation and together we put together a plan of action to get me to the start line. Unlike other clinics, Dr. Rodgers considered all aspects of recovery including PT, gait analysis, manual therapy, taping and seriously considered my long-term well being.	Tara	<b>5</b>
<b><i>Great service</i></b>	Maureen is always so caring and attentive. I can't imagine seeing any other chiropractor. I always feel so much better after treatment	Hilary	<b>5</b>

<b><i>Maintenance adjustment</i></b>	Had my usual adjustment. Only the prior patient was also in office. While I waited they took my temp with non contact electronic thermometer. Easy to keep distance until I met with Dr Rodgers. He wiped down head of table where my head/mouth would rest. Both of us wearing masks. Had adjustment and then out. They have hand sanitizer dispenser at desk if you like which I used before I left. I have been extremely careful and felt this worked great. Going back in a month.	Alan	<b>5</b>
<b><i>Highly knowledgeable</i></b>	Dr. Rodgers is highly knowledgeable in his field. After a few quick questions, turns of my head, and touch on my back, he could tell me some of my symptoms that I had failed to mention. Yes, I did have some tingling in my fingers! But no more! A few minutes later, I step out of the office feeling a strange freedom and relief from pain. He is amazing!	Neck	<b>5</b>
<b><i>Excellent, knowledgeable PT</i></b>	Jeremy is one of the best PTs out there. He always has effective, actionable steps for any injury, and gives objective feedback for getting me back to training as soon as I can.	Austen	<b>5</b>
<b><i>Great service, as usual!</i></b>	I have been to Dr. Rodgers many times over the last few years. He always figures out what is going on with my body and has great suggestions to work thru the issues and help me recover. He is awesome.	S.B.	<b>5</b>

<b><i>THE Best DR!</i></b>	I have been seeing Dr. Rogers for 4 years. There is no one else I would trust my (my families) chiropractic care to than him. If you are looking for an expert that has your best interest in mind, treats the issue- not just the symptom, and individualizes each plan this should be your next call!	F.B.	<b>5</b>
<b><i>Excellent results and a pain free life style</i></b>	Thank you for the professionalism and medical expertise. I have been coming to your office for many years. It is a great feeling to be known when ojo have returned.	Araceli	<b>5</b>
<b><i>My Review</i></b>	I was so thankful to get in to see Dr. Rodgers the same day I had a sudden issue with my hip flexor. He spent time covering various treatments and issues. I also really like Deb, who answers the phone. She's very professional and kind and helpful. Great attitudes, in my view, go a long way in these days. Thank you.	Jill	<b>5</b>

<b><i>He's the Best</i></b>	Simply put, Jeremy Rodgers is a top notch spine and sport medicine chiropractor. He has kept my back mostly pain free for about 10 years now. He has also helped with sciatica, plantar fasciitis, and other aches and pains. I highly recommend him for your physical well being.	Mark	<b>5</b>
<b><i>Never disappoints</i></b>	I see Dr. Jeremy Rodgers once a month for routine maintenance for a chronic back issue. 15 minutes of traction once per month has keeps me pain free to enjoy everyday life and my passion for mountain biking. Dr. Rodgers communicates exceptionally thoroughly, leaves no questions unanswered and offers treatment options with zero pressure. I highly recommend him and his practice.	Allison	<b>5</b>
<b><i>Regular adjustments work!</i></b>	As a 68 year-old gravel/road cyclist that logs 100+ miles a week, I treasure the regular adjustments that I get from Dr. Rodgers. He understands the stresses that cycling can impose on an old guy's body and uses treatment methods that work. He also regularly reminds me of the exercises I can do at home. Thanks to Dr. Rodgers, I can enjoy the freedom of riding my bike.	Jim	<b>5</b>

<b><i>Relief</i></b>	I have severe chronic pain and Dr. Rodgers always finds and fixes the problem areas in my back, neck, and shoulders. I can tell him where my pain is, and he's able to resolve it with adjustments while sending me home with exercises or stretches that help keep the pain at bay until my next appointment. He's made my quality of life so much better. I can't thank him enough.	Meredith	<b>5</b>
<b><i>Excellent diagnostic and preventative care</i></b>	Jeremy Rodgers keeps me going! His knowledge and diagnostic insights are first rate, and he effectively brings in and works with other medical experts to address my individual needs.	Lee	<b>5</b>
<b><i>The Best Ever</i></b>	Dr. Jeremy is the best. Always willing to take the time needed, whatever that is, to explain in detail what's going on and what it will take to correct the situation. Never pushes for unnecessary treatments and really cares about the life of his patients! I've been going to Dr. Jeremy for at least 12, maybe 15, years, even when it was quite a distance from my residence I would not go to another chiropractor, although Jeremy was willing to give me a recommendation of someone nearer to me.	Linda	<b>5</b>

<b><i>PT appt</i></b>	I appreciate the hard work Dr, Phinney is requiring of me to get back to 100% after shoulder surgery!	Shari	<b>5</b>
<b><i>PT and Chiro</i></b>	I was referred to Dr. Jeremy by a good friend after experiencing discomfort in my knee for about six months. I hadn't been getting any lasting relief from my other chiropractor's adjustments, CBD, stretching, or massage therapy. He was able to confirm the issue and develop a treatment plan that has been successfully helping me reduce the discomfort, fix the movement pattern, and almost certainly avoid surgery in a few years. Very happy with the progress, and happy to recommend.	Emily	<b>5</b>
<b><i>Patella Tendon injury</i></b>	Any time I have an injury I call Jeremy. I have been going to him for years and I always feel better knowing I will get the right diagnosis and he will help me treat it and speed up my recovery. I have referred many people to him over the years, all whom have been very grateful for his work along with that of his incredible PT staff. High recommend!!!	Kimberly	<b>5</b>

<b><i>My go to place for PT</i></b>	Either I,Äm hard on my body or just getting to the age where I need PT fairly regularly. I,Äve done PT at Colorado Spine and Sport for my back, shoulder and now ankle. Each time I,Äve received great service, personable and knowledgeable staff and most importantly gotten better. Highly recommend them.	Matthew	<b>5</b>
<b><i>Self-care and routines!</i></b>	You know when you get into a reasonable routine of self-care, well during the past year, those habits relaxed. With no excuses, I had acute lower back pain spasms and was seen by Jeremy the next day when I could move enough to drive, :( After being treated, I re-engaged with CS&S and will resume my 6 annual maintenance visits and daily stretches which remind me why I do not want to have those spasms again until there is another reason to get out of my self-care routine! :)	Jackie	<b>5</b>
<b><i>Fantastic massage!</i></b>	My body buzzes it feels so good after having a massage with Michael. He listens carefully to you at the beginning of each session to adapt to your needs on that particular day. Focussed massage is definitely his talent! Skilled and experienced, I know my body is getting a proper tune-up. Would absolutely recommend without hesitation!	Stephanie	<b>5</b>

<b>Yes!</b>	Jeremy fixed me! I was in so much pain and he fixed fast then he predicted he would. I normally am really scared of being adjusted so going to see him was my last resort. He is really kind with his adjustments and truly knows what he is doing. I can't tell enough people about him. Thank you!	Kimberly	5
<b>Outstanding!</b>	Fantastic staff, service and skill. I injured my back due to a fall and was fit into the schedule that same day.	Scott	5
<b>Above and Beyond</b>	I went to Dr. Jeremy Rodgers hopeful for relief from my painful sciatica. I was not disappointed! Jeremy mitigated my pain to a level 1-2 and also noted that I had loss of strength and mobility in my leg/foot. I was unaware that this condition could result in permanent loss. Jeremy wasted no time to order an MRI, refer me to neurosurgeon Dr. Rajpal, and even checked in on me post microdiscectomy surgery. Thanks to Jeremy's care and support, I am on a positive path to recovery!	Diane	5
<b>Great visit!</b>	I saw Jeremy Rogers for a shoulder ache and he went through my problem, gave me some exercises to do, as well as habits to do for better spinal posture and movement. Highly recommend.	Kenna	5

<b>Excellent service and treatment</b>	Got in and out quickly with treatment that resolved my neck issue and pain. Very knowledgeable and friendly.	George	5
<b>Great</b>	My daughter went to Maureen after PT at a different place didn't help her so we decided to try chiropractor instead. Maureen is so knowledgeable and helpful and great at explaining what she was doing and why. She is even coming in early one morning for an appt for my daughter since their schedules weren't matching. I am hopeful my daughter will continue to get relief. Even my hard to please almost 18 year old liked her. .	L.H.	5

<b><i>Bike Crash Realignment</i></b>	My regular adjustment happened to occur two days after competing in a 60 mile gravel bike race north of Fort Collins. I crashed on a downhill section of deep, loose gravel. While I easily finished, I was left with a stiff/sore neck. Dr. Rodgers quickly assessed my situation and successfully worked his „Äúmagic,Äù. Thanks, Doc!	Jim	5
<b><i>Best Chiropractic Care!!!</i></b>	I have been going to Colorado Sport and Spine over 7 years. Dr Thomm is So knowledgeable and helpful. She understands how to navigate the medical field better than most. She,Äôs very compassionate, concerned and devotes time to patients! I cannot recommend her enough.	Mary	5
<b><i>They fix it-- really!</i></b>	I've seen Maureen on and off for years and she's always figured out how to fix my back issues. Whether I am hurting from stress, injury from workout, or sitting poorly while working all day, she knows what to do. I had been doing pretty well for a year and a half during the pandemic and all of a sudden, my mid back area started to seize up from stress and sleeping in an odd position. I was able to book a 15 min appointment and I walked out of there brand new again. Love her!!!	Laura	5
<b><i>The Best Ever Spine andBody Care</i></b>	I've been seeing Dr. Jeremy for 15 years or more. I used to live on Sloan's Lake and the distance to Dr. Jeremy didn't matter ... I would not go anywhere else for my spinal and body care. Jeremy takes whatever time is needed for care and to explain what was wrong, why, and how to care for myself. You see Jeremy and you will not be disappointed!	Linda	5
<b><i>Excellent Care</i></b>	I have been seeing Dr. Jeremy Rodgers for over 12 years, and I highly recommend his care. He has helped me overcome numerous back issues and avoid surgery.	Lee	5
<b><i>Ease of mobility</i></b>	I am a sculptor and from time to time my muscles and tendons get bound up from long hours of extended use, which bring about that familiar discomfort. I have been seeing Dr. Rodgers for over 10 years for spinal manipulation and various techniques to improve my spinal health. After a wellness visit with Dr. Rodgers, my muscles and tendons move so much easier, allowing me to get back in the studio. I encourage anyone that feels restricted in movement or has that aching back to see Dr. Rodgers.	Paul	5
<b><i>Great care</i></b>	Dr Rodgers was recommended by a co-worker. The appointment was the most thorough I,Äôve had on my back in 25 years. He really listened, explained what he thought was going on and set a plan for care.	Michele	5
<b><i>Always what I need</i></b>	Every time I see Dr.Thomm she makes a world of difference in how I feel. She is the best. The office staff is pleasant and helpful.	Tina	5
