

CHIROPRACTIC SUCCESS STORY

After having injured my back years ago and getting it back in shape, it started to bother me again. After a thorough evaluation @ Dr. Wetzen's office a treatment plan was made and healing began. Within 2 months my pain decreased dramatically. Now about a year later I can say I am pain free and feel that I can be on my feet for extensive periods of time.
Thanks!

CHIROPRACTIC SUCCESS STORY

Few months ago I was suffering from a severe lower Back. Pain was almost unbearable. I had a doctor chiropractor but he close and terminated his service. so i had no choice to look for another one. Then I met another chiropractor. He never care about taking Xrays to see what was going on. He just took a look at my back and told me that there was nothing wrong. I did have just few visits with him where he only did the adjustments and do some steam. During this time he prescribed me Ibuprofen and Tylenol to help with the pain. After few weeks the pain came back even stronger. I didn't want to go back to that mediocre chiropractor. so I look for another one. Family and Sports Chiropractic was like a Gods sent. From the very first day they treated me very good. They took me Xrays to see what was going on and they explaining me with lots of detail about my situation. After seeing the severity of this problem. I started the very next day. I got lot better after couple weeks and the pain was less every day until to the point that I am pain free. Doctor Wetzen and Doctor Shigaki are two of the most outstanding doctor I ever met. They are very professional. I want to give full credit to Dr. Shigaki because she was always there for me to answer my questions, show me how to do the home exercises, and do my adjustments everyday. There is no doubt that Dr. Shigaki is an outstanding doctor and the very best at what she does. I am very pleased with the service given at this location in general. What I like from Dr. Shigaki and Dr. Wetzen is that Drugs are not the direct answer to fix this type of problems. They strongly believe that by doing traction, adjustments and home exercises is the answer to this problems. I truly wish there were more chiropractors like Dr. Shigaki and Dr. Wetzen, outstanding Doctors.

Reason For Beginning Chiropractic Care My back was giving me a lot of pain.

How Long Were You Experiencing These Problems This last bout was in December 2005.

What Was It Like At Its Worst And How Did It Affect Your Life Very painful and I couldn't do much of anything. Couldn't walk fast nor do things that I used to do.

Previous Attitude Or Experience With Chiropractic Only one other experience about 1 1/2 - 2 years ago.

Past Treatments And Results Had 5 treatments then and I did not like it. He never gave me an xray, etc.

What Progress Have You Made Since Beginning Chiropractic Care I'm not in very much pain now. I am able to walk better (well as best I can with 2 broken toes)

What Side Benefits Have You Experienced And How Has This Affected Your Life I probably would have better side benefit if my toes were not broken.

Reason For Beginning Chiropractic Care lower back spasms

How Long Were You Experiencing These Problems about 7 years

What Was It Like At It's Worst And How Did It Affect Your Life I would get back spasms often and at times it was so painful I would have to pull over if I was driving or it would keep me awake most of the night

Previous Attitude Or Experience With Chiropractic I was not familiar with chiropractic care at all

Past Treatments And Results N/A

What Progress Have You Made Since Beginning Chiropractic Care I have very few back spasms, still aches in my neck but the range of motion in my neck has improved.

What Side Benefits Have You Experienced And How Has This Affected Your Life Knowing that I won't be getting back spasms is great, I feel better than when I started, in less pain and more flexibility.

CHIROPRACTIC

SUCCESS STORY

When I first came for treatment after my car accident I was barely able to move. The pain in my lower & upper back would not allowed me to work. During the process of recovery I notice major improvement with my flexibility & the pain slowly disappearing. Now the pain its mostly gone & the improvements are highly noticeable.

CHIROPRACTIC SUCCESS STORY

I have seen significant improvement in both my neck and lower back. Pain or stiffness tends to come only after longer periods reading or sleeping improperly.

The process has not been pleasant, but Doctor Wetzen and his staff have helped to give me the best experience possible. The results are more than worth the investment.
