

# CHIROPRACTIC SUCCESS STORY

Dr. Wetzen & staff have given me a new sound hope for a pain free life that I never thought would happen after a severe ATV accident in 2008. I broke several bones, slipped several C spine disc which lead to 2 separate spinal surgeries. I never thought I could go a day pain free but slowly but surely I have seen much improvement.

Thank you

Dr. Wetzen my  
Family appreciates  
you!

Whenever something happens to me (sickness, injury)

Dr. Wetzen's office fixes me up. They are some of the first people I think of when I need extra care. I come to them regularly because if something does happen, it is easier to restore my body to the level it was at before the incident.

I firmly believe that I could not work on my feet if I did not see this office regularly.

# CHIROPRACTIC SUCCESS STORY

I went on vacation for a week that involved a lot of walking around. Unlike times in the past, I was able to be out the whole day with little to no complaints of low back pain. When I did experience pain, I would stop to check my body alignment, fix what was incorrect, and then carry on with activity as usual! 😊

Dr. Wetzen,

My story is pretty neat, and I have to tell you that the only reason that I began chiropractic care is because I met Dr. Wetzen at a healthfair. I started talking to Dr. Wetzen, and felt as though I was not totally sold on the idea, but the more I talked to him, the more that I thought MAYBE this could help. I reluctantly said, I will give it a try, NOT EXPECTING anything to change. I was dealing with headaches and jaw pain, almost daily. I had been dealing with those issues for about 8 years. At the worst part of my life, I had tried to committ suicide 4 times, I was frequently depressed. I had suffered many traumatic things as a young child, and had not been able to totally overcome them. I had many symptoms that told people that I had manic depression. Many of my friends, did not understand me, I was often referred to as an emotional roller coaster. For the headaches and jaw pain, I was often taking 800-1000mg of motrin daily, and then having to take zantac due to the stomach pain, because of the motrin. The only past treatment that I had was taking the anti-flamatories. I did go through some emotional counseling, that I felt did me NO GOOD. I am not putting down therapy at all, all I am saying is that if you are not ready and if your body is not in a place to receive the help, it did not due me any good. Since, I have begun chiropractic care, my LIFE HAS BEEN TRANSFORMED!!!! Yes, I did say TRANSFORMED. As I have been CONSISTENT with my appointments, and adjustments, I have been able to deal with life much easier. Since I have started my treatment, there has been emotional releases and I have been able to forgive people, I needed to. I have been able to release a lot of the old painful memories that were holding me in bondage, and not allowing me to function as well as I could as a child of God. All I can tell people is that I could not put a price on the benefit that I have felt as I have started care. I have tried to encourage a lot of my friends and loved ones to come in and start care as well. I would like to say that if you have not started to see results, DO NOT GIVE UP, FOCUS ON WHAT HAS CHANGED IN YOUR LIFE. Look at your life WHOLISTICALLY, and see what has changed, because I know that you are changing and that things are changing. We are always so quick to say what is wrong with our lives, instead of focusing on what is going right, and what has happened to us that is going well. I know I have been through the roller coaster, of saying, Dr. Wetzen, but this hurts, and if I will continue to look and focus on what has changed, I will stay encouraged, and be able to focus at my best human potential. I would love to talk to people who are questioning wether they need to continue care or not. THIS HAS BEEN AWESOME!!!!!!!!!!!!!!

Anita

# CHIROPRACTIC SUCCESS STORY

I came into this office with 2 separate surgeries to my C-spine (Neck) due to an ATV accident 5 yrs prior. I had very little hope I would avoid a 3<sup>rd</sup> surgery when my symptoms came back which were R arm, shoulder and neck pain and loss of most use of my Fingers. After some research I learned that fusing my spinal cord I was damaging disc below and above which caused me to seek other options than surgery. I thank God I found Dr Wetzen although at first I was nervous bcs some aches and pains came about after treatment but I was patient and by week 3 I noticed a dramatic change in my pain level and about 60% increase of function. I am very grateful for the love care I received.

Thank you

# **CHIROPRACTIC**

## **SUCCESS STORY**

After my first set of treatments, I felt great, but I knew there was still more to be done to maintain my correction. Now that I've begun my second set of treatment, I have even less pain and increased flexibility. My drives home from work are not as uncomfortable and the pain in my neck & shoulders has been reduced significantly. I am looking forward to continuing treatment.
