What were your reasons for beginning Chiropractic Care?

Neck pain, migraines

How long were you experiencing these problems?

4+ years

What was it like at its worst and how did it affect your life?

I had to spend entire days in bed, motionless in complete silence. The pain was so bad I wanted to die.

What was your previous experience or attitude with/about Chiropractic?

I was interested in trying it.

What were your past treatments and results if any?

OTC pain killers sometimes helped, prescription drug for headaches only worked if I took it immediately after pain started. Even after pain went away, I worried that if I did something wrong the pain would come back.

What progress have you made since beginning Chiropractic care with our office?

Headaches are gone! I still have neck pain, but it's less frequent and not nearly as bad.

What benefits have you experienced and how has this affected your life?

I feel better. I don't have to take pain killers anymore. I don't have to waste time in bed anymore.
