Bio C 1:1™

A Balanced Vitamin C “Complex”

Bio C 1:1™ is a unique synergistic formula featuring a standardized, specialized bioflavonoid complex and ascorbic acid.

Studies show natural vitamin C and ascorbic acid have the same chemical identity and basically the same bioavailability.

In nature, vitamin C is accompanied by more than 4000 phytochemicals known as bioflavonoids or flavonoids. Although they are not essential for life, the bioflavonoids are one of the most important classes of biologically-active compounds. Among the uses for vitamin C/bioflavonoids supported by scientific evidence are:

- Allergies/Asthma
- Stroke
- Eczema/Skin Cancer
- Gallbladder Disease
- Diabetes
- Cataracts/Macular Degeneration/
Glaucoma
- Wounds/Burns
- Pain, Inflammation & Swelling
- Osteoarthritis
- Cervical Dysplasia
- High Blood Pressure/
High Cholesterol/Heart Disease

Bio C 1:1™

A Balanced Vitamin C “Complex”

Who Can Benefit From Using Bio C 1:1™?

This is an ideal formula for overall wellness or for individuals with particular conditions for which vitamin C &/or bioflavonoids have demonstrated effectiveness.

How Does Bio C 1:1™ Work?

Bioflavonoids and vitamin C work together to deactivate free radical compounds that may damage DNA, cause degenerative diseases and speed aging. Quercetin, a bioflavonoid and vitamin C work like anti-histamines to reduce allergic reactions. Some bioflavonoids have been shown to induce cancer cell suicide.

Is Bio C 1:1™ Clinically Effective?

Among approximately 34,000 published studies each on vitamin C or the bioflavonoids, it is very easy to find scientific support for their effectiveness across a broad range of health conditions and for wellness.

Are There Any Possible Side Effects?

Side effects are not anticipated. High doses may cause gas, and/or loose stools.

Are There Any Known Contraindications or Interactions?

Vitamin C (usually in amounts >500 mgs) can interact with some prescription and OTC drugs. Be sure to discuss all of your medications with your practitioner. Avoid if you have a condition made worse by acid or any known allergy to ingredients. Tell your practitioner if you are pregnant or lactating.
