Refund requests submitted after the 18<sup>th</sup> will not be processed. \* Refunds of discounted tuition amounts are based on full price.

### Student Testimonials

***“Every Doctor who even discusses nutrition with a patient should be taking this course!”***

“Pursing my diplomate in nutrition has given me the knowledge and confidence to provide my patients with natural and safe options in improving numerous symptoms. It has expanded my services to existing patients and opened the door for new one” – Amy

“The course has been a real blessing for me. It gives me a solid foundation of nutrition recommendations for my patients, and a keen explanation of “why” I am doing it. My patients have confidence in knowing that I’m not just using the latest “new idea” on them, but a well thought out plan of how to best help them.” - Paul

***“This is the most timely and best course I’ve taken since Chiropractic College!”***

***“In just 2 sessions I improved my diagnostic skills and increased my income – what a win!”***

**The diplomate program ... “was a very good program and is worth all the time, energy, expense and effort. Being with like-minded people pursuing the same excellence was a great experience. Becoming Board Certified in Nutrition within the chiropractic profession has allowed a greater depth and credibility as a healthcare professional. Whereas so many people are jumping on the bandwagon of being a “nutrition expert,” this postgraduate degree truly distinguishes the average doctor or “expert” from one with true credibility and also passion for this great field.” – Linda**

**“Knowledge is Power! And knowledge of nutrition gives you the power to provide more services, give better care, reduce legal risks and impact your bottom line.**

**Enroll TODAY!”**
