

# Surprising Solution For Many Suffering With Numbness, Tingling, or Sharp Pains

If You Suffer From A Single One Of These Torturous Symptoms of Neuropathy –THE FACTS BELOW MAY BE THE MOST IMPORTANT YOU HAVE EVER READ IN YOUR LIFE!

It may come and go...interrupt your sleep...and even make your arm or legs feel weak at times. Maybe you've had multiple tests, only to find out no one has any idea what you have. Maybe you've even been put on a drug with heavy side effects.

Do you have any of the following symptoms...

- Pins and needles feeling
- Numbness in the hands or feet
- Tingling or burning sensations
- Weakness in the arms or legs
- Sharp shooting or burning pains

If so you may have a condition called peripheral neuropathy.

My name is Dr. Steven J Kamego, clinic director at Kamego Chiropractic Wellness Center. I've been helping people with neuropathy and nerve problems for over 15 years. **As a Pro-Adjuster Chiropractor I successfully treat patients with No Twisting, No Popping, No Turning & No Cracking of the spine**

More than 20 million Americans suffer from peripheral neuropathy, a problem caused by damage to the nerves that supply your arms and legs. This painful condition interferes with your body's ability to transmit messages to your muscles, skin, joints, or internal organs. If ignored or mistreated, neuropathy can lead to irreversible health conditions.

**Why not get help by those trained to correct the major cause of peripheral neuropathy?**

Data from the National Board of Chiropractic Examiners' Job Analysis of Chiropractic lists **arm and leg neuropathy as the second most common nerve problem treated by chiropractors.**

Often neuropathy is caused by a degenerating spine pressing on the nerve roots. This can happen in any of the vertebral joints from the neck all the way down to the tail bone.

**The Single Most Important Solution To Your Neuropathy**

By using the computer assisted Pro-Adjuster and other gentle techniques, I'm able to release the pressure that has built up on the nerve. This allows the messages of healing to once again get to body like God intended. When the brain can talk to the body, the body works better. This allows the

nerves and body to heal and the symptoms go away. God gave you a body that is a self healing miracle. Drugs don't heal they only mask the symptoms. Your body and God do all the healing

**Numerous studies have proven chiropractic's effectiveness in helping nerve conditions...**

**"Manipulation [chiropractic adjustments], with or without exercise, improved symptoms more than medical care did after both 3 and 12 months."** – British Medical Journal

Patients showed an **85.5% resolution of the nerve symptoms** after only 9 chiropractic treatments. - *Journal of Chiropractic Medicine* 2008

With chiropractic care, patients had *"significant improvement in perceived comfort and function, nerve conduction and finger sensation overall."* – *JMPT* 1998

**"Significant increase in grip strength and normalization of motor and sensory latencies** were noted. Orthopedic tests were negative. Symptoms dissipated." – *JMPT* 1994

*What these studies mean is that with chiropractic care, you could soon be enjoying life...without those aggravating nerve problems.*
