

CHIROPRACTIC PLUS PAIN TO WELLNESS CENTER PLLC in CARY, NC

COVID-19 Statement

Sept 2021 Update

Rest assured, we continue to stay informed to maintain safe protocols and thoughtful choices for your wellness.

- If you are feeling ill or think you have been exposed to the COVID-19 virus*, we will reschedule your appointment and give any advice we can to assist you.
- In compliance with local guidelines, Masks are required to be worn in all health care offices, including ours.
- We ask you arrive on time for your appointment. Our office continues to schedule patients so that we can limit the number of individuals in the office at one time.
- We have eliminated the need to physically sign-in upon arrival. Credit card and other payments, or any needed information to copy, such as an insurance card, are handled with disinfection or no-touch protocols.
- No-touch temperature is taken upon arrival. Upon entering the treatment room, all patients wash their hands in the treatment room sink. (And, as usual, the doctor washes his/her hands again as well).
- Consistent with our standard practices, after each patient's visit, our treatment rooms and front desk area are disinfected where needed. This includes but is not limited to treatment tables, adjusting tools, sinks, counters, and common touch points. We also ventilate the treatment room periodically with fresh air.
- If another person is in the main office area, we ask for courtesy to maintain 6 feet of space between one another, however, we recognize this is not possible between patient and doctor.

♥ THANK YOU! We appreciate you and look forward to helping you soon!
