THE SAFETY PIN Life SYSTEM

THE SAFETY PIN Life SYSTEM is a unique approach to achieving and maintaining optimal health. We use the visual analogy of a safety pin to convey an important message. When the safety pin is closed, the loop between your brain and your body is connected, fully functioning, healing and recreating new cells. When the safety pin is open, there is a disconnect, and your body may be in a diseased state.

Today in Canada, and in the rest of the western world, the priority in health care is to help people after they are already sick. That is a backwards approach to health care, and it is why as a nation we are getting sicker and sicker. Recently, a medical researcher stated it plainly, "We are not living longer, we are dying longer." In other words, we have the capacity to keep people alive for longer and longer durations, but the majority of these people do not have a good quality of life. They cannot do most of the things that would allow them to live fulfilling lives.

Wouldn't it be great if we could work at staying healthy, instead of waiting to get sick? What if we could role back the biological clock on the average Canadian? What if 50 really was the new 40? Or 60 was the new 50?

That is exactly what THE SAFETY PIN LIFE SYSTEM is designed to do. We are here to help you live longer and healthier, not die longer!

How does THE SAFETY PIN \mathcal{L}_{fe} SYSTEM work?

LOSS OF WELLNESS - DISCOVERY

Unique questions will lead to new answers. We will begin to look at the current state of your health and wellness. In essence, how are you doing right now? We will also ask you some detailed questions about your history and your family health history.

It is important to understand that your current health problem started years ago and was multi-factorial in origin. The only exception would be an acute trauma like a car accident or severe sports injury. Even with acute traumas the extent of the injuries is most often dependent on your health before the accident. Your answers to the following questions offer up clues to what dangers your body is currently encountering and will give us a base line for comparison to future outcomes.

DISEASE CAUSATION - ANALYSIS

We will explore which lifestyle factors are affecting your overall health and your ability to live fully alive. It is a well known fact that 80% of the risk factors for the two most feared killers; heart disease and cancer, are lifestyle related. The same is true for the majority of chronic illnesses affecting patients today.

Let's get started in understanding your health problem and finding a solution.

DISEASE CAUSATION - ANALYSIS

PLEASE CHECK ANY OF THE FOLLOWING SIGNS OF ORGAN MALFUNCTION OR DIS-EASE YOU HAVE EXPERIENCED, EVEN IF UNRELATED TO CHIROPRACTIC:

WHAT YOU CAN EXPECT NOW

YOUR FIRST VISIT

So far today we started a discovery process with you, to determine the course of your health concerns.

THIS HAS INCLUDED:

- 1. LOSS OF WELLNESS DISCOVERY questionnaire.
- 2. DISEASE CAUSATION ANALYSIS

NEXT WE WILL GO THROUGH:

- 3. A detailed HEALTH HISTORY with one of our exam specialist.
- 4. A CRITICAL BLOCK ANALYSIS: A thorough SPINAL EXAMINATION by your doctor, to determine any abnormal alignment and motion patterns. And how this is detrimentally affecting the central and peripheral nerve systems and organ function (subluxation).
- 5. Any FURTHER IMAGING STUDIES that may be necessary such as X-Rays.
 6. I give consent to an examination, x-rays and care if my case is accepted.
 Signature: ______ Date: ______
 Parent/Guardian (minor)______ Date: ______

YOUR NEXT APPOINTMENT:

After the examination, your doctor will determine if you have critical blocks to healing caused by abnormal alignment or abnormal motion of your spine (subluxations) and if you are a good candidate for reconstructive or structural Chiropractic care. Your doctor will then arrange for your next visit, which is the Doctor's Report. The purpose of the Doctor's Report is to review with you the findings from your consultation and examination.

At the Doctor's Report, the doctor will give a detailed overview of how reconstructive structural Chiropractic Care works and the scientific evidence supporting the specialized work that we do. The doctor will also review **THE SAFTEY PIN LIFE SYSTEM** action plan. This will be done in a small group setting with other new patients.

We know that there is tremendous power in you fully understanding your problem and how we will work with you to correct it. That is why the Doctor's Report is detailed and very informative.

We ask that your spouse/support person comes to the Doctor's Report with you. Health information is complex and it can be difficult to explain your results and **THE SAFTEY PIN LIFE SYSTEM** action plan to your spouse/support person if they are not present at the report. Having support and understanding at home is important to your complete recovery.

After the presentation, your doctor will privately review the results of your examination and X-Rays. Your doctor will outline a course of care, discussing how long it will take to correct your spine, how often you will come in for your adjustments, and the cost for your care and correction. At that point you will be able to decide how you would like to proceed.

YOU ARE IN GOOD HANDS. YOUR HEALTH IS OUR #1 PRIORITY.

Thank you for giving us the privilege to determine if we can help you become fully alive.
