NEW PATIENT PEDIATRIC APPLICATION FORM

Dear Parents,

Congratulations on taking this very important step towards improving your child’s health potential. We are honored that you have placed your trust in our practice to help care for your child. Our doctors have had the privilege to serve many children and families. We have worked closely with local Pediatricians and are happy to reach out to yours, upon request, to explain what we find as well as our treatment plan. The Michaux Family Chiropractic concept offers you more...

Michaux Family Chiropractic creates amazing individual health which in turn impacts the whole family allowing them to achieve their goals with joy, love, faith and enthusiasm. Michaux Family Chiropractic offers a collaboration of multiple healing techniques that produces a greater level of health.

The following information will help discover your child’s specific needs and allow us to fully address the root cause of their condition. We work as a team, using many different healing techniques to help you add life to all of their years.

Our New Patient process typically takes two visits. Your child’s first visit allows us to thoroughly listen to your needs and concerns and carefully evaluate your child’s spine and nervous system. We offer on-site x-ray technology, and only perform x-rays on children if they are medically necessary. We are sensitive about x-ray testing. Your child’s follow up consultation will be one of the most important visits your child will have here at Michaux Family Chiropractic as we will outline for you and your family your child’s results and recommended action plan. Your child may also begin their care here on their second visit. We value you and your desire to gain optimal health. We promise to take the time to listen to you and your child and make this experience an enjoyable one.

Welcome to the MFC Family!

Dear Parent,

It is a pleasure to welcome you to our family of happy and healthy Chiropractic patients. Please let us know if there is any way we can make you and your family feel more comfortable. To help serve your child better, please complete the following information in order for us to focus on discovering the cause of your child’s health concerns.

The human body is designed to be healthy. The primary system on the body which coordinates health is the Central Nervous System. The healthy function of every cell, every system, and every organ is dependent upon the integrity of the Central Nervous System. The bones of the skull and the vertebrae of the spine, house and protect the Central Nervous System. From the birth process until the present, events have occurred in your child’s life which may have caused interference and damage to this delicate system. Physical, emotional and chemical stresses, which are common in our contemporary lifestyles, can result in misalignment and damage to the spinal column. This interference is called Vertebral Subluxation Complex.

This form will help reveal the causes of the Vertebral Subluxation which interfere with the optimal function of your child’s nervous system and therefore impair your child’s health potential.

TERMS OF ACCEPTANCE AND CONSENT FOR CARE

THIS DOCUMENT CONSTITUTES INFORMED CONSENT FOR CHIROPRACTIC CARE

Our office has one goal, to aid the patient in achieving optimal health as quickly and safely as possible, through the removal of interference in the body’s ability to heal. We do this through safe and gentle chiropractic care.

We will attempt to identify and diagnose any ailments that the patient may have that may be corrected through chiropractic care, massage therapy, and/or active or passive rehabilitation techniques. If any condition or disease that is out of our scope of practice is found to be present, we will refer the patient to an appropriate physician to diagnose and/or treat that condition.

Our primary focus is the detection and correction of vertebral subluxation. This is the misalignment of one or more spinal bones that can cause interference to the nervous system. Any interference to the nervous system may or may not cause a variety of differing symptoms. Again, our focus is to correct the cause of the interference, not the symptoms themselves.

Vertebral subluxations are brought on by physical, chemical, and/or emotional stress or trauma. Through specific chiropractic adjustments, we reduce and/or correct these subluxations. It is also important to note that the sooner we are able to treat a patient’s subluxation and the associated degenerative processes, the faster and more completely the patient’s body can respond and heal. It may be necessary to perform an examination of the patient each time a new injury or trauma occurs, and often additional x-rays and/or imaging may be medically necessary to maintain the utmost safety when dealing with the patient’s body. The risks of chiropractic care, massage therapy, and active or passive rehabilitation are minimal when dealing with a licensed professional; however, if you have concerns about these risks, please discuss them with the doctor prior to the examination and/or treatment session.

I have read and fully understand the statements and terms listed above. I hereby give consent to MICHAUX FAMILY CHIROPRACTIC to evaluate me to determine my condition and treat me for such condition. I also understand that I may, at anytime, discontinue care with the examination, x-rays, and/or any treatment or therapies if I choose.

CORRECTION

Today we are becoming more aware of how technological lifestyles and practices expose our children’s nervous system to continuous stresses. These result in vertebral subluxations. Current scientific research is showing the direct relationship between the function of the central nervous system and the immune system function. The integrity of the central nervous system is therefore imperative to a healthy immune system in your growing child. Today, your child has the opportunity to have a spinal analysis by a Doctor of Chiropractic; the only health care provider qualified to locate, analyze and correct the vertebral subluxation. A chiropractic adjustment is the beginning of greater health and well-being for your child.
